# Give the green light to a bright idea.

If your organization has a project worth doing this summer, Summer Canada '81 will help pay for students to help get it done.

If you're an organization, with a singularly good idea that needs doing, remember that the closing date for applications for Summer Canada '81 is closing in. (March 16, 1981 to be exact.) If we don't have your application already, act now. We need it before we can give you the go-ahead. Or the wherewithal to get it going.

Let's talk dollars and sense.

The projects should be the kind you can really get into, with your heart and your head. Projects giving priority to parks, recreation and day camp services; health and social services; energy conservation; renewable resources and environment; tourism; artistic and cultural development would certainly make sense to us. And for projects accepted, we'll put up salary contributions equal to the provincial minimum wage. And up to \$35. overhead, per person, per week.

### The Qualifiers.

The projects must be non-profit. The benefits should be long term. To the students. And to the community. The project must provide at least three jobs for students. For six weeks to 18 weeks. From May to September. And keep in mind that Federal Government employment policies support plans which give equal opportunity to all Canadians, including the young, women, Natives and the disabled.

### A few words about closing dates.

We really want to hear your good ideas. But we've got to hear soon. Proposals must be post-marked by March 16 so get the application form now, if you haven't already. From your Canada Employment Centre, or Employment Development Office. And give the green light to some get-up-and-go.
