SCBE wins praise from parents

"The Simcoe County Parents for French" has praised Simcoe County Board of Education Trustees for its decision to implement French language education in Grades 4 and 5 in Simcoe County beginning September, 1981.

"This is a very positive step towards equality of French instruction for Simcoe County students," the group has stated.

"We hope that this is only the first step of introducing French language instruction at the level of Grade 1 in the very near future.

"This is necessary to ensure a good knowledge of French for the children of Simcoe County which will be a valuable asset to them in the Canada of the 1980's."

To this end, "Simcoe County Parents for French" will soon present Simcoe County Board of Education with a brief providing documentation on a French language feasibility program for all primary grades beginning in the fall of 1982.

It will urge trustees to maintain high standards in Simcoe County and ensure our children an adequate opportunity for French instruction.
