

Ace golfer

Larry Chapman of Sunnyside, prepares to tee off at Brooklea Golf and Country Club in an attempt to repeat the hole-in-one he recorded the preceding Friday. Chapman aced the third hole with a seven iron Friday to become the first area golfer to get a hole-in-one this season at Brooklea.

Run For Fun gaining little support

This could be one of the most disappointing years for the Midland YMCA-CKMP Run For Fun to be held Sunday with only 15 people signed up for the event so far.

That is drastically down from the previous year when 150 runners participated in the run, according to physical director at the YMCA, Dave Hamilton.

Hamilton says, however, the run will go on despite the low numbers involved, weather permitting.

This is the third annual Run For Fun and needless to say, there's still plenty of openings for anyone interested in running.

Starting time for the

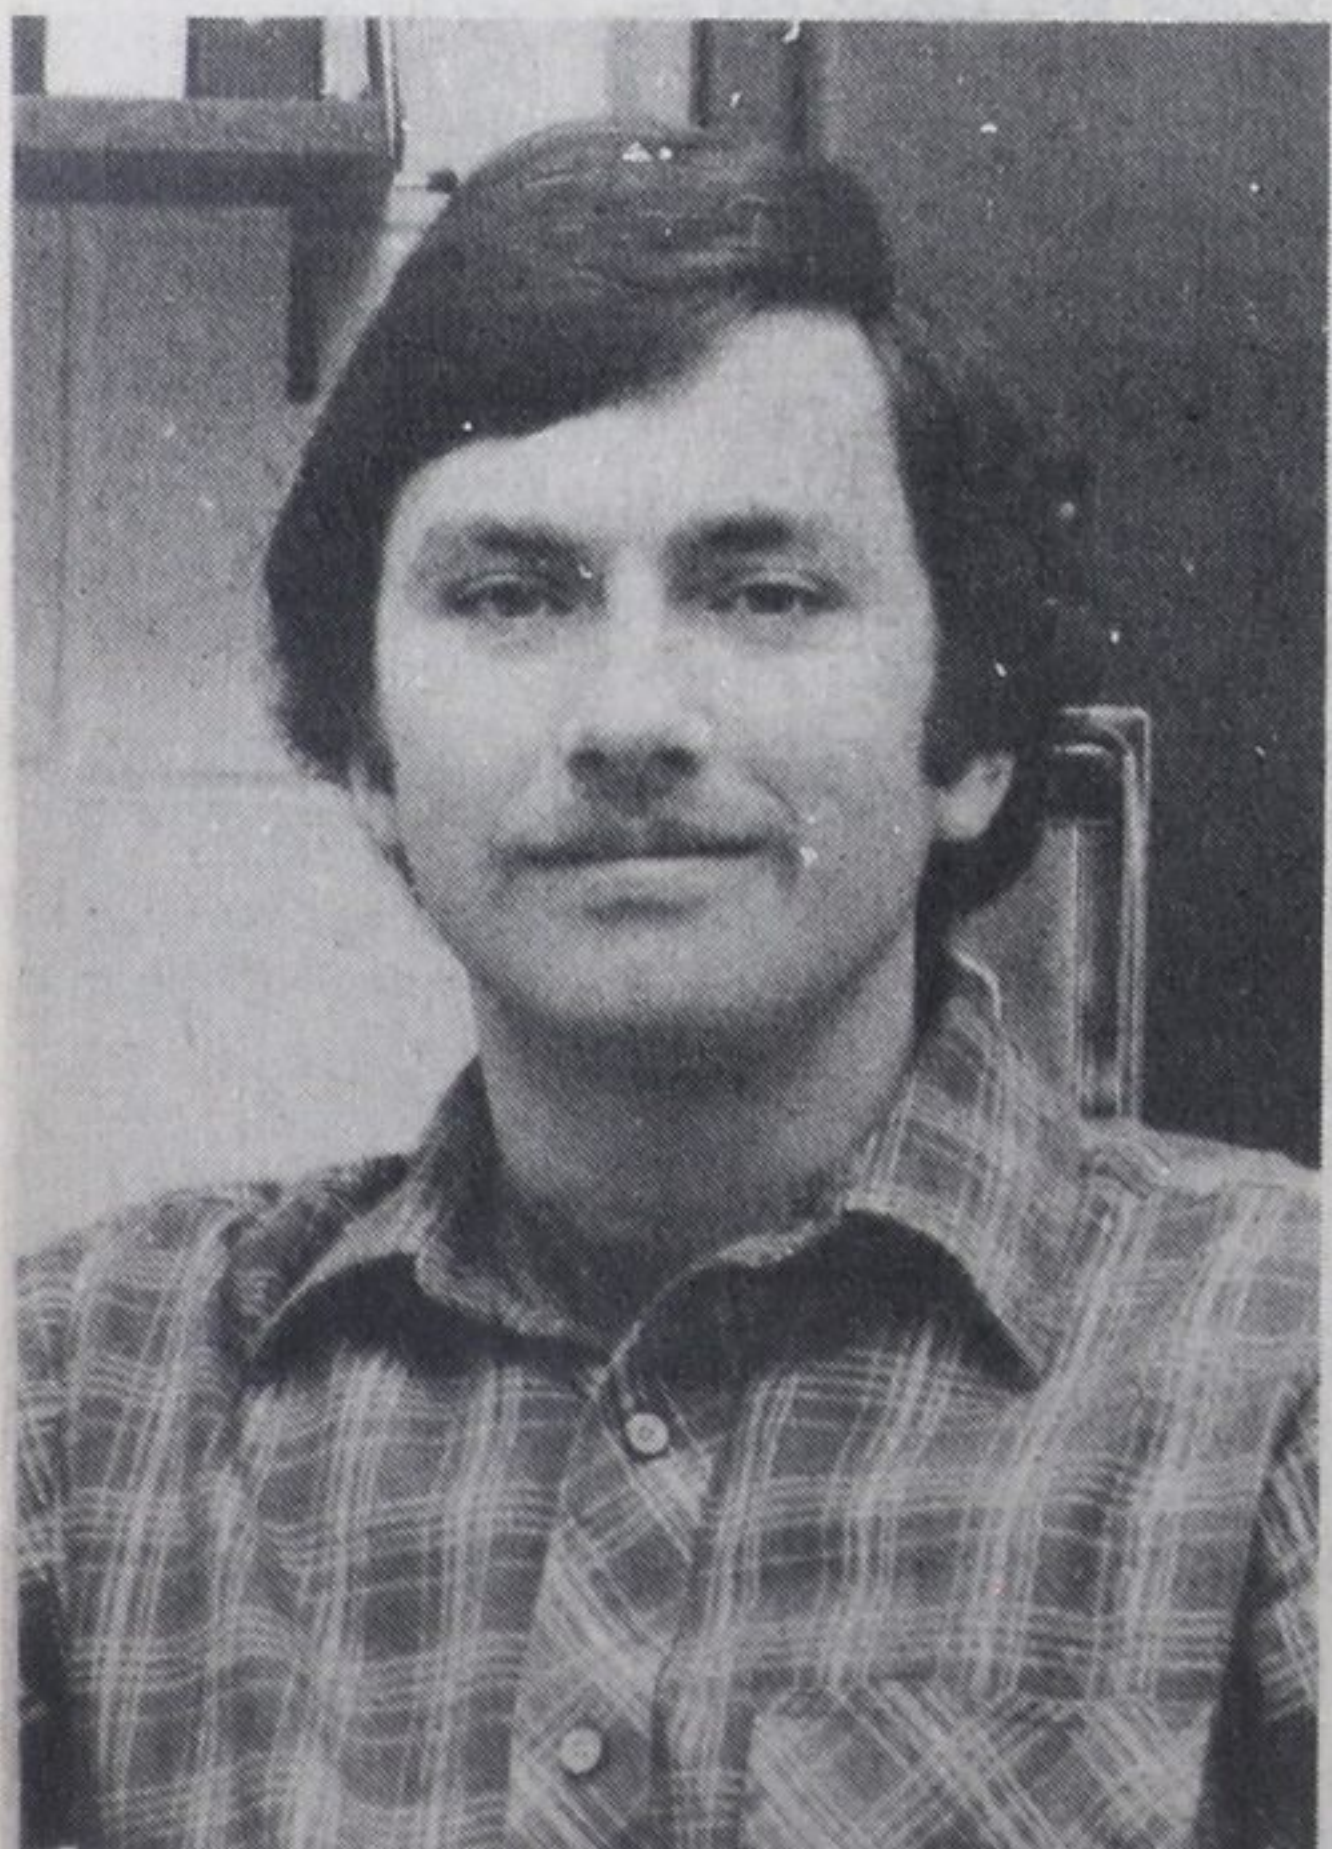

event is 2 p.m. at Midland YMCA in Little Lake Park, Midland and there will be four course routes to follow.

They are novice at two miles, intermediate at four miles, senior at six miles and masters at eight miles.

Admission for the run is \$1 for children 16 and under, \$2 for those 17 and over, \$3 for couples and \$5 for families.

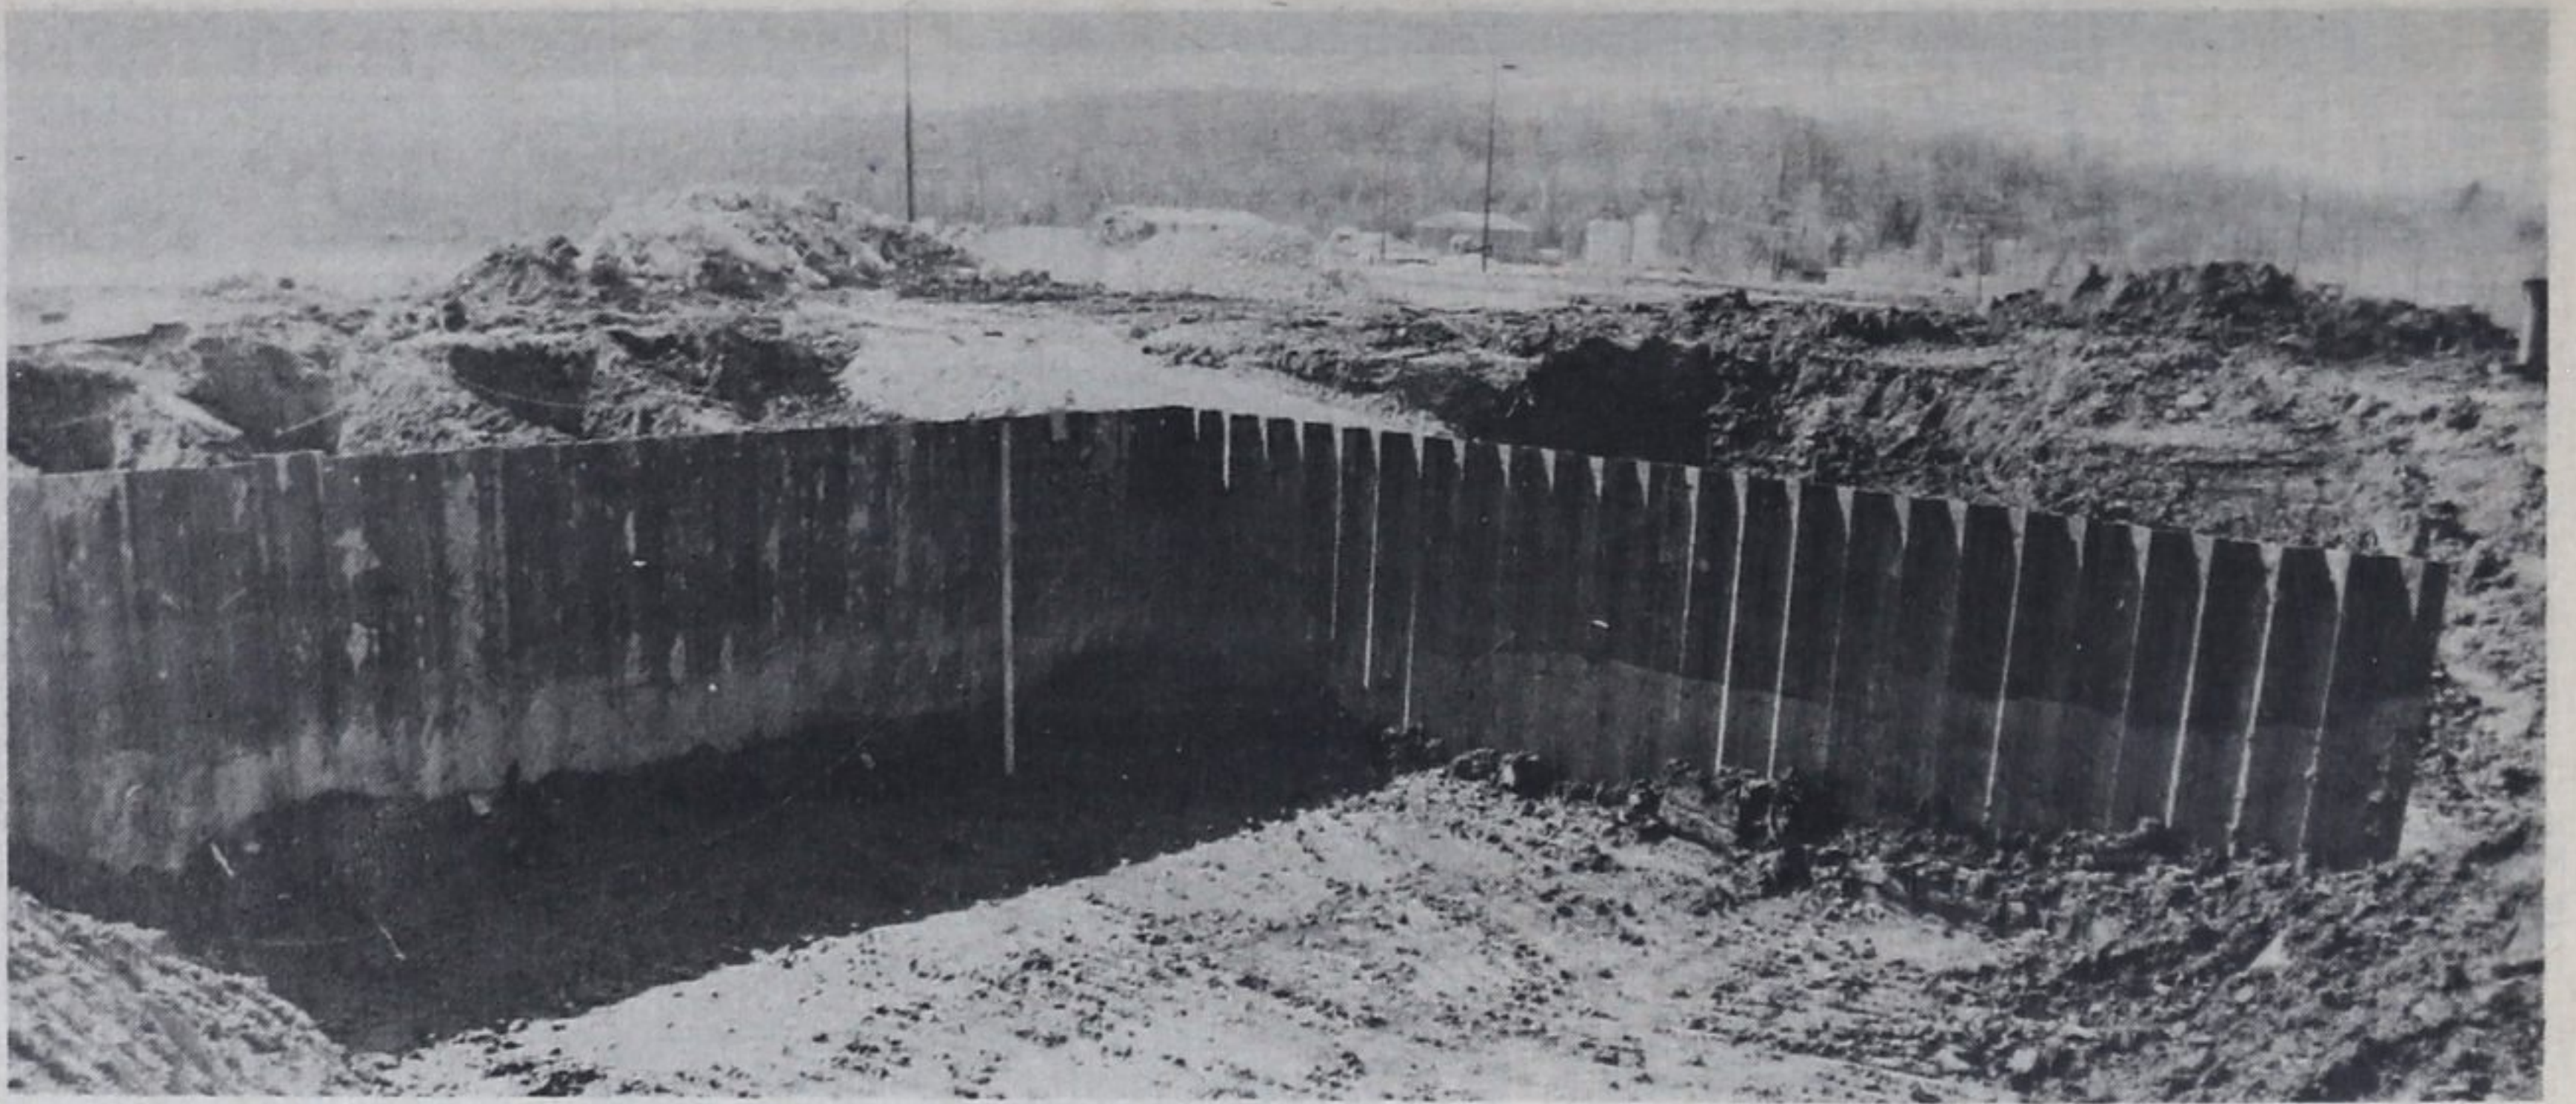

All participants will receive Run For Fun Pins and there will be random hidden prizes along the course routes.

If you wish to run in this event, call Dave Hamilton at Midland YMCA at 526-7828 and you must have done this by the end of tomorrow.

Dave Hamilton

...turnout disappointing

Launching ramp taking shape

The public launching ramp at Pete Peterson Park in Midland is coming along smoothly with the first stages of construction taking shape. Here, the basic metal walls have been put up and the

retaining walls, not shown, are in place. Weather only turned wet yesterday, hampering the workmen but with the return of good weather, work will carry on as scheduled. It is conjectured the work

will take about a month to complete and when finished, the ramp will accommodate vessels up to 30 feet in length. Also in the construction will be a parking area and temporary docking facilities.
