

Shot in the arm

Ontario Energy Minister Robert Welch today announced a five-year, \$10-million Commercial/Industrial Solar Demonstration Program, the first of a number of programs which are being developed as part of the Government's five-year, \$50-million "Solar Strategy for Ontario" announced last fall.

"You cannot have a solar industry without a market for its products, and you cannot have a market without proven technology," Welch told the 1981 Canadian Energy Exposition being held at Ryerson Polytechnical Institute.
