A Dramatic Demonstration

It's often assumed that people with mental or physical disabilities cannot participate in today's complex society.

As a symbolic gesture in this International Year, we've done something out of the ordinary: we've produced a television commercial - just to set the record straight.

Consider this. Of the 68 people involved in our production, 42 are mentally or physically disabled: among them, the director, the cameraman, the set designer and the carpenters, the electrician, the make-up

artist, the sound engineer, the announcer, many of the musicians and the man who wrote the music, who was deaf - but is better remembered for being Beethoven.

If you've seen the commercial, you've seen what happens when we work together. If you haven't seen it yet, it's a dramatic demonstration of a single simple point: disabled people should be thought of for what they can do, rather than what they can't. Our slogan, created by a man with a disability, sums it up and says it all: "label us able."
