

Disney World Hotels

If you wish to stay at either of the Disney World properties in Florida this winter it is a good idea to call now for your reservations.

For peak times of travel at Christmas or March Break, these Hotels can be booked two years in advance. Rates vary according to Hotel and room location.

There are also package holidays available in Villas located on the Disney World grounds. These packages are a great idea for families and offer additional bonus, such as breakfast with Mickey

Mouse.

You have a choice of either taking a car or transfers from the airport and once in the Disney World grounds everything is near you.

Use the limousine and relax in the summer traffic

Limousine service from Midland and surrounding areas to the Toronto Airport has a lot of advantages.

A scheduled service is now available daily. New arrivals in Toronto can always be sure of a limousine service to Midland departing morning, afternoon and

evening.

This also applies for trips to the Toronto airport. If you do not wish to share a limousine there is also the option of hiring a private car. Ask your travel agent for details, they can arrange for you to be picked up at your door.

Medical insurance outside of Canada

Lloyds of London offers some additional advantages over the Blue Cross coverage you receive and I will list a few for you. Expenses within Canada, upon return to Canada and out-of-Canada is covered by Lloyds of London. Blue Cross covers you

only outside of Canada.

Lloyds of London covers X-rays, rental of wheelchairs, crutches, braces and other medical appliances. Blue Cross does not.

Subsistence allowance - \$300.00 as a subsistence allowance for reasonable expenses for accommodation and meals, is also covered by Lloyds of London, but is not covered by Blue Cross.

There are also several other lengthy benefits that are very important. It may be to your benefit to investigate this further and once again your travel agent will be glad to assist you.

You'll be glad you did

Share an experience, hire a student

by Line Berry
Student Placement Officer

Do you will have those jobs that you had put off until this summer and are not done yet and find the time has just passed you by?

Well, Canada Employment Centre for Students have that special student who is willing and ready to help you tackle all those put-aside jobs.

Home owners, students paint your

house or your cottage, shingle your roof, build your sun deck, move your furniture, clean and wash your windows and cut your grass.

Farm owners, have students feed your

stock, pick your crop and help with your haying.

Business owners, students can unload your trucks, stock your shelves, do your inventory and act as janitors.

Students take pride in their work, wanting to satisfy their employers and to prove to themselves that they are capable and able to do a good job.

Need something done? The time to do so

is now for the summer is half over. Students are ready when you are.

Students want to gain experience and learn new skills. So why not share that special knowledge of yours and

help students enrich themselves while earning a few dollars.

Casual jobs are just what many students looking for. So hire a student for an hour, a day or a week and share an experience.
