

## Council supports low interest mortgages

A resolution from the Town of Leamington asking that the provincial government arrange for low interest mortgages for Ontario citizens, similar to low interest mortgages available to citizens of Nova Scotia, has been supported by Midland

town council.

"One tends to agree with these things," Councillor Richard Platt said, but what about tenants? The resolution seemed discriminatory, he said.

Another member of council suggested that perhaps someone would

start a petition for tenants.

Midland council also supported a resolution from the United Townships of Bangor, Wicklow and McClure that the Ontario minister of intergovernmental affairs

be petitioned to reduce the three year period during which arrears on taxes are allowed to

accumulate to two years.

Bangor, Wicklow and McClure claim that

arrears of taxes are rising substantially, particularly in rural municipalities, and

municipalities are having to borrow more money to cover the lack of income.

### Food fit for a king

It was a family affair for owners of Midland Fish and Chips, Mr. and Mrs. Tom Meridis, during last week's three-day Sidewalk Sale in Midland as

the Meridis clan and staff served up "goodies" out in front of their eatery during the giant three-day fun-fest in Midland.
