STEP
SERVICE

This special represents one of the most professional and thorough service and inspection offers in the Automotive Care industry.

We supply products and labour for items 1 to 7:

1. Change Motor Oil (up to 4 litres of BP Super Visco Motor Oil in SAE 10W-30, the preferred recommendation for year round use)
2. Supply and install a new Fram oil filter (most passenger cars)
3. Lubricate all grease fittings
4. Lubricate hand-brake cables
5. Lubricate all gearshift and clutch linkages (if fitted)
6. Lubricate all hood hinges and locks
7. Lubricate all doors

We inspect or test for items 8 to 33:

8. Check differential oil level
9. Visual inspection of exhaust system
10. Visual inspection of shock absorbers
11. Test and adjust air pressure in mounted tires and spare
12. Inspect tires for wear, cuts and abrasions
13. Pressure test cooling system and check fluid level
14. Inspect coolant overflow tank
15. Pressure test radiator cap
16. Visual inspection of radiator hoses and connections
17. Visual inspection of radiator
18. Visually inspect conditions of radiator shroud and fan blades
19. Test and record freezing point of radiator coolant
20. Check windshield washer for fluid and operation
21. Check wiper blade condition
22. Visual inspection of water pump
23. Visual inspection of all belts
24. Battery inspection including top-up, cables and hold downs
25. Inspect air cleaner element
26. Check brake fluid level
27. Check steering fluid level
28. Check transmission fluid level
29. Check positive crankcase ventilation valve
30. Check heater and defroster operation
31. Check oil and temperature warning lights
32. Check operation of horn
33. Check all lights including signal lights
