Prompt action cited

Had it not been for members of the choir smelling smoke, Saturday morning, and turning in the alarm, All Saints Anglican Church in Penetanguishene might have suffered serious fire damage.

According to Fire Chief Ted Light, an overheated fan motor in the church's furnace caused smoke to filter throughout the church.

There was no fire nor was there heavy smoke damage however the incident could have had more serious consequences had the church been vacant and the fan, motor and furnace caught fire.

And how was your week?

During the week ending Sept. 28, members of the Midland detachment of the Ontario Provincial Police were called upon to investigate 156 occurrences.
