The next step will be the zone round to be held on March 14, so Good Luck to all.

Alpha Marion from Perkinsfield won the monthly "Ladies Nite Out" tournament held at Knight Haven Lanes on Sunday evening with a 700 triple including handicap. Alpha rolled 338 in her second game to nail down the first place prize money. Other winners were as follows: 2nd-Julie Desjardins (657); 3rd-Joanne Lapensee (609); 4th-Rita McCoy (589). High singles were rolled by Debbie Chapman (225); Anne Major (231) and Jeanette Lorette (215).

Bob McMann took his mixed team to Gravenhurst on Saturday to bowl in a 12-team tournament and wound up taking third place with a five-game score of 6,431.

A team from Gravenhurst took first place with a total of 6,751 followed by Orillia with 6,518. The team won \$180 for its effort and Jules Marion won the mens high-five with a superb 1397 score.

Recent winners in the Midland-Penetanguishene 5-Pin Association booster club draw are as follows: Feb. 6-\$150, Neil Ladouceur; \$100, Marg Burgie (19); Feb. 13-\$50, Guy D'Aoust; \$25, Norma Tapscott (48)

Around the Leagues:

The Swinging Singles team of the Tuesday 7-Ups mixed league rolled 3,929 for three games with scores of 1289, 1351 and 1289. Remi Pilon (337) and Andy Maheu (331) had the high singles in the Midland Industrial League on Wednesday night.

Swim safety programs graduates

This group ready

by Bob Murray
 The past two weekends found this group not battling the elements outdoors, but indoors busily preparing for the upcoming summer swimming season at the Midland YMCA.

Twelve of them -- namely Laurie Graham, Pauline Grenier, Pete Juneau, Kim Marchildon, Kathy Hubbard, Heather Windrem, Pat Warne, Lisa McKelvie, Rob Richardson, Kathy Fraser, Charlene Baxter and Don Thompson -- nine of which are Midland "Y" Staffers, successfully completed a joint Red Cross and Royal Life Saving Society Instructors' Course.

Their services will be utilized as swimming instructors and lifeguards at summer camps, special swimming classes and at the "Y" pool.

During the rigorous training sessions the candidates were taught

various techniques such as swimming mechanics, leadership, teaching, lifeguard and pool patrol procedures, accident prevention, water safety, class-testing, test-checking, report completion, and

Life Saving Society policies.

Instructors for the course from the Red Cross were Jack Curtiss, Laurie Dalcoe and Donna Howatson, while the Royal Life Saving Society was represented by Christin Jenkins,

Ruth Ray and Tracey Daniels.

According to Anke Vermuelen, the Aquatic Director at the "Y", the standards for certification in this course are very rigid, and the successful candidates

put forth a superb effort in this endeavor.

The course was held under the auspices of the Midland YMCA, and both Societies wish to thank the "Y" for making the facilities at the pool available to them.

For those who want to travel in the best of company

If you're listening to anything less than a Pioneer component car stereo system, then you're traveling with the wrong company. So to get you off on the right foot, we thought we might recommend the following Pioneer component car stereo combination.

To begin with, there's our KEX-20 in-dash component cassette deck with AM/FM stereo. It features our Supertuner II with an electronic pulse synthesizer for ultra-precise tuning. If what you want to hear is on tape, just pop in a cassette. The cassette deck offers all the benefits of metal, chrome and Dolby tape playback along with locking fast forward and rewind for easy tape handling.

Next there's our CD-5 under-dash 7-band graphic equalizer. With it you can compensate for the acoustic deficiencies in your car in order to achieve full fidelity listening enjoyment. It also features a dual-amp balancer so you can adjust front/rear speaker levels of a dual-amp/speaker system.

To power this system, we recommend our 20-watt** per channel GM-40. This compact separate power amplifier packs plenty of punch to deliver solid bass and silky highs without going stale.

To surround you with the best in full-fidelity listening enjoyment, there're our revolutionary TS-1600 rear-deck mount Cross-Axial™ car speakers. Unlike conventional rear-deck speakers which bounce high frequencies off the rear window, the TS-1600's stand-up tweeter and diffuser assembly radiates them at the listener for increased clarity and greater stereo imaging.

PIONEER Component Car Stereo
