

# CFL E consultant picked by RCSSB

Simcoe County Roman Catholic Separate School Board received and later adopted, Wednesday night, a report prepared by its Catholic Family Life Committee.

Because of the importance of the document it is being reprinted here at this time:

"This committee's mandate upon its appointment in November, 1981 was to review the status of Family Life Education within the board, to ascertain the status of the subject area in other Separate

School boards in the province and to report back to the board with its recommendations.

"Subsequently a report was presented to the board at its meeting of April 7, 1982, containing a number of recommendations, all of which met with approval.

"On the evening of May 5, 1982, the committee met to assess, once more, the implications of the April 7 report for the school year beginning September, 1982. The recommendations made at the April 7 meeting

reflected the committee's thinking but upon further reflection, and observing that the hiring of a resource teacher was provided for in the budget, the committee feels that this board is in a position to appoint someone to implement the program.

"A discussion on the procedural problems attendant upon such an appointment precipitated a number of concerns, most related to timing. Advertising, screening, interviewing, and actual appointment require some lead time. May 30, 1982 was fast

approaching and this was a critical date in that resignation had to be tendered by then to release a teacher from September contractual obligation to a board. It was of course, possible that a suitable candidate could have been selected from amongst internal applicants.

"However, in that event, a suitable replacement would be required and the May 30 date enters the picture again.

"It was also apparent

to the committee that the requirement was one of consultant rather than resource teacher.

"Given the urgency of the situation and the fact that the board would not meet again until May 16 the committee instructed administration to advertise immediately the position of Consultant in the area of Catholic Family Life Education. The actual recommendation to hire is being presented for the board's approval at this

meeting and has the effect of moving the intent of the April 7 recommendation No. 5 ahead timewise.

"Arrangements were made to have committee representation on the interviewing team. It is underscored that the selection of the proper consultant for this task is of paramount importance to the success of the programme and that should the appropriate individual not be found for September, 1982,

then the selection procedure will continue with its goal September, 1983.

"In view of these considerations and the action taken by the committee, the following recommendation is presented for board approval:

1. That a Catholic Family Life Education Consultant be appointed for September, 1982 to begin to implement the committee proposals approved on April 7, 1982.
