

Another 'first' for HDH patients and dedicated staff

Continuing care patients at Huronia District Hospital celebrated Senior Citizens Week with a bus outing and an indoor picnic Tuesday.

Originally organizer Heather Cowan (head nurse in the continuing care unit) had planned an outdoor picnic in Little Lake Park.

"When bad weather threatened," said Heather, "we got wonderful cooperation from Penetang Midland Coach Lines. They took fifteen patients and their guests on a tour that

included the grounds of the Martyrs' Shrine as well as the downtown area," she observed this week.

Access to the bus was made easier with a wooden ramp constructed by the HDH maintenance staff.

Junior Civilian members George Conthy, Albert Grace, Grant Ivens and Graeme Harbottle all assisted patients from their wheelchairs into bus seats. For many of the patients, this was the first time they had seen the renovated Town Centre, or the

refurbished town dock area.

Back at the hospital, patients and their guests enjoyed guitar music by Faye Parker. The hospital's dietary department provided sandwiches and a cake decorated with roses, and "Picnicing Pleasure" in icing.

Said Brian Alves, chief physio therapist, "This first annual outing was a total cooperative venture. Every department in the hospital helped to make it happen. We hope it will become an annual highlight."

School daze!

Both Penetanguishene and Burkevale School are marking their centennials this year. Here's an old memory-maker from the "old" Burkevale School showing one of the school's teachers and students. Photo was supplied by Mrs. Ellen Haourt of Midland.
