

A safe driving tip to remember

With all the expressway driving we do today, it's easy to forget the hazards of gravel and dirt roads you might encounter on side trips. Never drive into a

dust cloud, cautions the Ontario Safety League. If the vehicle in front of you is throwing dust all over the landscape, don't follow too closely. He may have to stop

suddenly and you'll be right on top of him. If the dust gets too thick to see, pull off the road (out of traffic) and wait for it to settle, or drop far enough behind to

make sure you have a clear view. Remember, you can skid at just about any speed on gravel and dirt roads if you have to stop or turn suddenly.
