

Demand for blood is on the rise

Donors needed Sept. 15

Each month there seems to be an ever-growing demand for blood.

In fact, every six seconds someone in Canada is helped by a blood donation.

With this in mind members of the Huronia Branch of the Red Cross will be playing host to a Red Cross Blood Donors' Clinic in Midland next month.

It's scheduled for Wednesday,

Sept. 15 from 1:30 p.m. to 8:30 p.m. at the Yonge Street West Civic Centre.

The clinic's target is 350 pints of blood. With your help this goal can be matched or even topped.

Remember, the person who will receive your blood will be healthier for it...give "the gift of life," you'll be happy you did.

Presents anti-gun control petition from constituents

Doug Lewis, deputy opposition house leader and MP for Simcoe North last week presented, on behalf of his constituents, a petition opposing the passage of Bill C-451.

Bill C-451 which deals with gun control, calls for the licensing of all firearms, including those possessed prior to 1978 when the present Firearms Acquisition Certificate came into effect.

"The petitioners feel that the passage of Bill C-451 would infringe upon the rights and privileges

of law abiding citizens who own and use firearms for legitimate purposes", stated Lewis.

The present gun control section of the Criminal Code is cumbersome, expensive to administer, and does not really restrict the use of firearms. The Progressive Conservative Government had set up a parliamentary committee to conduct a full public review of this legislation. However, the committee never had an opportunity to proceed. To date, the Liberal Government has refused to allow a review of the legislation.

Midland Library News

by Irene Donaldson

We would like everyone to know that the Reference Dept. has Scott's Industrial Directory for the Atlantic Provinces, Ontario, Metropolitan Toronto, Quebec and the Western Provinces.

These books are very helpful for anyone trying to obtain information about the manufacturing industries across Canada. Another informative book is titled "The

Financial Post Canadian Markets 1982."

This book gives key market data on Canadian communities. We also have some booklets on how to write a resume and an application letter sample.

Now that the jam making season is here we would like to pass on the following information from the Georgian Bay Regional Library System newsletter:

The Certo hotline - a toll-free number to the General Foods kitchens - is open and ready for business. Three expert home economists are available to Aug. 31 to answer your questions about jam and jelly making. The nation-wide toll-free number is 1-800-268-7380.

Our Book Sale has been so successful it has been extended for another week. There are still some non-fiction and fiction as well as some children's books.

That's Betty's target — Ban the bomb

Ernie Betty wants THE bomb banned. The Midland resident would like to hear from you if you are of a like mind.

He can be reached at 526-7581. "The bomb," according to Betty, "is no respecter of persons."

So far Betty's cause has been aided by local law-makers who feel his cause is a worthy one.

"I've met with Deputy-reeve Bev Day (chairman of the town's public safety committee) and his committee and they have all given me 100 percent support."

Off to Ottawa today — Mayor will be on the go

Midland's Mayor Moreland Lynn will be earning his keep this week.

This morning he'll be meeting with Simcoe North MP Doug Lewis and Simcoe East MPP Allan McLean to further discuss the fate of the

RCA Colour Picture Tube Plant in Midland.

RCA has announced plans to shut its doors for good here in town on Dec. 31.

Later today Mayor Lynn, who holds a private pilot's licence,

will fly to Ottawa to meet with Herb Gray, minister of industry, trade and commerce in an effort to drum up federal funding so as to attract a new tenant for the Highway 12 factory.

Tomorrow Lynn will be in Metro to meet with CNE officials concerning a special council meeting local law-makers are to hold during the Ex in Toronto.

Construction market going soft in Midland?

So far this year 65 building permits have been issued by the Town of Midland for construction valued at

\$823,675. During the same period in 1981, a total of 81 were issued for a value of \$968,000.

JA are off to Winnipeg

by Roger Flint

Junior Achievers of 1981-82, Kelly Norton and Mark Lewis will be representing J.A. Midland/Penetanguishene at CANJAC - Business and Youth Conference at the University of Manitoba, Winnipeg during the week of Aug. 16 to 20.

They will be among 130 outstanding Achievers from across Canada who will meet with business leaders to discuss "Productivity - Everyone's Business."

Every Achiever delegate looks forward to meeting and discussing the conference theme, and how it will affect their lives and careers, with leaders from the business community as well as with each other.

Our local businesses have, through their financial contributions, provided this opportunity for Kelly and Mark. As well they ensured a successful year of achievement for all achievers. It is their belief in our free-enterprise system that accounts for their generosity of donations to ensure that our youth get some practical, first-

hand understanding of the role of business, how it functions and what is necessary for success even in these trying economic times.

Special thanks is extended to our contributors:
