

Energy savers

Findlay COMFORT SYSTEMS

Fireplace insert can reduce your fuel bill

499⁰⁰

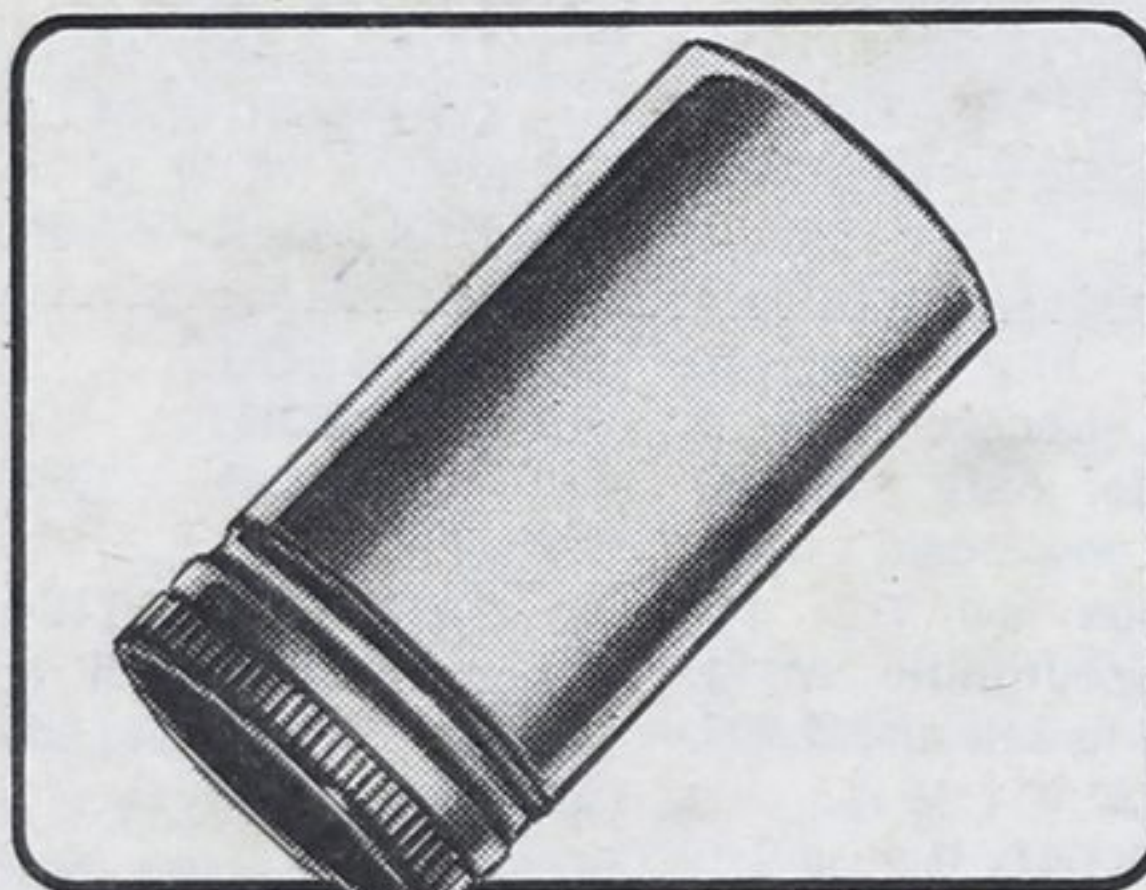

You'll feel even more comfortable knowing that the warmth from your fireplace isn't being wasted, but rather being used to help heat your home. A Findlay fireplace insert will do just that! About 33% of the unit extends out of the fireplace to radiate heat into your room instead of letting it escape up the chimney. Other features include a large, baffled firebox for more complete combustion, convenient 9" wide cooking surface, reinforced and screened glass viewing door and open base for easy ash removal. Fits most masonry fireplaces with 28 to 36" front width and 22" back width (see chart below). Installation manual included. ULC listed.

Model and product number	Front Opening Height	Bottom Opening Depth	Top Opening Depth
A 64-2744	21"	17"	13"
B 64-2746	21"	20"	16"

NOTE: In some stores it may be necessary to allow up to 2 weeks for your order to be filled
