

# Stop starting problems... See us now!

Winter is here! It won't be long before the weatherman will be forecasting sub-zero temperatures, snow and freezing rain. It's all bad news for your car's starting system.

Stop worrying! Start doing something about it now. Bring it to us for an inexpensive check-up that'll make sure your car's starting circuit is operating efficiently.

Don't get caught in the crowds when the first cold snap hits. Let the expert mechanic at your Canadian Tire Auto Centre give you a head start on worry-free winter driving.

## Our Starting Circuit Analysis includes...

- |   |  |
|---|--|
| <input type="checkbox"/> Checking battery           | <input type="checkbox"/> Checking high-tension wires               |
| <input type="checkbox"/> Cleaning battery terminals | <input type="checkbox"/> Checking primary and secondary resistance |
| <input type="checkbox"/> Checking starter           | <input type="checkbox"/> Checking fan belt and tension             |
| <input type="checkbox"/> Checking regulator         |  |
| <input type="checkbox"/> Checking ignition coil     |  |

All for this low price
