

# Ron Hamelin: sets out the issues

by **RON HAMELIN**  
To the citizens of Tiny Township: I am taking this opportunity to express my position on certain key issues facing our Township. The attempted annexation of our lands by the Town of Midland was met with relative success but at a cost. Not only will the ratepayers of Midland eventually have to pay dearly for this ill conceived move but of more importance to us is the loss of time, opportunities and jobs which this annexation attempt has caused by stopping development

and frustrating the rate payers in this area. I will spare no efforts to regain our position and will discuss, if required, without the shadow of the Province over us, real or imagined problems along Highway 93 with Midland officials as we have done so with our other neighbours. A great part of our shopping dollars are going elsewhere, why not keep them here? Especially when development can occur now without urban services. Little Lake is not being polluted from our side and I would

certainly see to it that it never would in the future. Another matter which is before us is the care and use of our shoreline. We are blessed with one of the most beautiful recreation area in this country and I believe it should be enjoyed by people from all over, but not indiscriminately. problems of traffic, unsanitary practices, vandalism, drunkenness, rowdiness and more was being allowed with little or no help from any other authorities save our own resources. We get no outside financial help to

maintain our shoreline and its facilities. I therefore support the principle of selective access to our beaches where, in time, there can be adequate parking, pedestrian walks, clean beaches, sanitary facility and an adequate support staff. This all takes money which can only come from your taxes, and it also takes time to organize and implement. I have worked very hard at these projects and I would appreciate being able to continue. With your help, input and patience

we can have facilities at our beaches to be proud of. I have for many years and, with your votes, will continue to support good, practical, and up to date land use planning. It is a thankless never ending task but it must be done with the seriousness it deserves. It would seem that we must have all these planning rules and regulations otherwise chaos would rule but I do believe in making them as humane as possible. The Township of Tiny has the dubious distinction of having a leaky sanitary land fill site. I have demanded an answer to this problem from the authorities having jurisdiction for some time with frustrating results. As your councillor, I will support any assistance which may be required for the safety and health of our rate payers affected and

I do believe in a joint effort with our neighboring municipalities to have our own site where we can personally supervise its operation. I believe it is better to have one well organized site for six municipalities than six sites which may or may not be well maintained save our own. There are many other issues and problems of equal importance that will confront your next Council I feel confident that I can meet and help to solve these problems to our benefit.

## Art Stewart promises to work for the people

by **ART STEWART**  
For the past 10 years I have been a member of Town Council, and six of those years I have had the privilege of being your Reeve, representing Penetanguishene at County Council.

For example: Improved street lighting, resurfacing our streets, new installation of sewers and in 1983 we will start work on the north end, we already have 200,000 dollars in grants allocated for this work.

member of the Finance Committee at County Council. I think we did a good job at keeping our budget down this year and I would like to see it kept at the 1982 level if at all possible. I can't make any promises to you, the voters, that I might be unable to keep. But I do promise to work for the people of Penetanguishene to the best of my ability,

During my term on Council much has been accomplished in Penetanguishene.

I am Chairman of the Finance and Administration on Town Council, and I am also a

and to always listen with an open mind. I have lived in Penetanguishene for 42 years and would like to see us keep our own identity and our own council, I would not like to see Regional Government take that away from us. The place to fight this is at County Council with a strong and experienced voice, and with your help and support I would be able to do this. I would like to thank you for your support in past elections and would appreciate your support again on Nov. 8, to reelect me for Reeve of Penetanguishene.

## Gabe Brunelle has always been involved

by **GABE BRUNELLE**  
I wish to thank Parker Publishing for giving me the opportunity of introducing myself to you.

We, in the Township of Tiny, have some problems, as most other communities have, like the land fill issue, the annexation and our airport, but the advantages of living in such a beautiful township with our beaches and clean country sides and villages sure make up for those problems. The people of the

Township can be proud of its office staff and leaders, such as Morris Darby, who are always open to the people's opinions and willing to listen and discuss these matters. It has been my privilege and pleasure to serve all the people of "Tiny" in the past and hope to continue in the future. Thank you and be sure to vote.

I'm Gabe Brunelle, I'm 42 years old and was born and raised in the Township of Tiny. My wife Joan and I have three children, two sons David and Denis and a daughter Michelle. I have always been involved in my community and served on many local boards. Three years ago, I was appointed as councillor to the township and was re-elected two years ago. In those three years, I served on the Parks and Recreation Board, the Planning Board, the Airport Commission and the Fire Department. I have enjoyed meeting all the people serving on the boards and departments, many

PERKINSFIELD MUNICIPAL OFFICES

## Electors of the Township of Tiny

A sincere **Thank You** for the acclamation as your Reeve for the term of 1983-85

**J. Morris Darby**

TOWNSHIP OF TINY  
RE-ELECT  
**RON HAMELIN**  
COUNCILLOR

**TO THE ELECTORS OF TINY TOWNSHIP**  
For the past twenty years, I have served our Township in many capacities. During the last four of these, you have given me the privilege of being one of your councillors. Having sat on more than a dozen boards and committees in that time, has furthered broadened my experience in Municipal Affairs. My dedication and attendance are a matter of record. At this time, we need a strong voice and firm convictions, not only for ongoing municipal business, but also to succeed in preventing any annexation of our lands, to demand the protection of our environment, and the orderly use of our shoreline. I truly believe that I have been and will continue to be that voice. Therefore, I urge you to vote for me, again, for councillor, in this coming election.

Sincerely, Ron Hamelin
