TURBOFIRE promotes high cranking amps to really turn it over in extremely cold and wet weather. Best of all, you don't have to top it up with fluid. For all full-size and fully-equipped cars, and for older, heavier cars becoming difficult to start. 10-2203X

FREE replacement guarantee... for life!

Some competitors pro-rate their guarantee, resulting in replacement costs. If our Turbofire should fail due to manufacturing defects, we'll replace it FREE for as long as you own the car in which it was originally installed.

#Different tread than shown

The all-new, all-season SEASONMASTER XT steel-belted radial is the best choice for all... winter, summer or fall. The computer-designed tread provides greater road holding characteristics. It is now XTRA wide, XTRA deep to deliver XTRA grip in deep snow, on wet roads. XTRA-large polyester casing encircled by two steel belts provides extra-long mileage. Plus an XTRA-wide whitewall for a mark of class. Performance rating 65,000 km.

SUPER-SLOW SUPREME steel-belted winter radial for deep snow traction essential for our northern snow belt regions. 2 tough steel belts with twin 'rolling ribs' hold the tread firmly to the road for directional stability and long mileage. Polyester body plies ensure casing strength, uniformity and smoothness. Plus a nylon cap ply bolsters strength throughout. Compatible with other radials installed as original equipment on late model cars.

5-year unlimited mileage, road-hazard guarantee
