## Bus loading approved by school board

The Simcoe County Board of Education has been given permission to load and unload handicapped children at the entrance to Midland's Huron Park School.

The school board intends to build a turn circle at the front of the school on school property.

## \$2,500 ain't hay

Just over \$2,500 was raised, Sunday afternoon, during the Third Annual Terry Fox Run in Midland.

The 10 km run attracted just under 50 participants, reports Bob Skeaff, the project's organizer.

## 10 accidents probed

During the month of August, Penetanguishene police personnel, according to acting Chief of Police Don Westcott, probed six reportable and four non-reportable motor-vehicle accidents on town streets.

As a result of one of the accidents, one person suffered injuries and required medical attention.

## Work continues on court challenge

Preparation will continue for two to three more weeks, on the legal challenge over francophone education in Simcoe County that Lafontaine area resident Jacques Marchand is going to take to the Supreme Court of Ontario.

Marchand in late August announced he would be naming the Simcoe County Board of Education and the provincial Ministry of Education, the bodies responsible for public school education in Simcoe County.

Marchand, the father of a student attending Ecole Secondaire le Caron, through the legal action hopes to clarify what rights, under Article 23 of the Canadian constitution, a minority has to education in its language.

# Landfill committee will report to public on Monday

Chairman John Lackie of the North Simcoe Sanitary Landfill Committee will announce the committee's next step in the search for a garbage disposal site on Monday, Oct. 3, says Percy Ehler, technical advisor to the NSSL.

The announcement will follow a meeting of the committee, planned to review a report on public reaction to four

sites proposed for landfill in Tiny and Tay Townships. The report was compiled from numerous letters, petitions, verbal comments and briefs submitted by the public to the committee since the proposed sites were announced in mid-August. The committee will review and analyze the report in an effort to determine "where we are going from here," said Mr. Ehler.

At open houses on Aug. 17 and 18, held to present the four site options to the public, committee members suggested they might have the four choices narrowed down to one choice by the end of September. Consequently, residents opposing the four sites, as

well as Perkinsfield residents who fear that extension or expansion of the Pauze dump site may be the Committee's answer to the garbage disposal problem, are anxiously awaiting Monday's release of information.

The Committee has been urged to consider alternatives to landfill, such as incineration and resource recovery, for garbage disposal, and much work has been done looking into these options, said Ehler. Those methods are more expensive than landfill, and a secure landfill site would still be necessary, even if an incinerator or recycling plant were established, to dispose of ashes and non-reclaimable waste, he warned.

## Naturalists visit farm museum

The monthly outing of the Penetang-Midland Naturalist Club enjoyed last Sunday afternoon at the Bygone Days Farm Museum near Collingwood.

A church, general store, school and several homes were viewed by the group. Steam powered threshing engines, early 1900s tractors, and farm machinery dated back to the mid 1800s were on display. Many of the homes were furnished with the early pioneer clothing, dishes, and furniture.

Mr. and Mrs. Fisher, who own the farm, have named their little village Fisherville. An inn and a milk house is under construction at the present time.

### IS A FUNERAL NECESSARY?

Death is one of the most difficult losses we can experience - especially the death of a family member or spouse.

The visitation and funeral service can be 'tools' that help us accept the fact of death and permanent separation as the real thing. It becomes a time of consolation to those who have experienced the loss - a time for friends to SHARE their grief. The funeral helps us remember the life of the lost one. It provides strength for the family and friends and communicates to all those attending that this life is now permanently separated from ours.

Sometimes those who do not attend the funeral of a loved and close one suffer more afterwards. The funeral can become the first stepping stone to the rebuilding of our own lives without the presence of the deceased.

Call us if you'd like more helpful information and booklets on the subject of funerals.

## Auxiliary fulfills pledge to HDH

It was the culmination of a year's labours for the Huronia District Hospital Ladies Auxiliary, and it came to a fruitful end on Monday at the hospital.

For about a year, the Ladies Auxiliary of HDH has been raising funds through various means to help pay for the purchase of the new Ultrasound machine at the hospital.

HDH ladies have held dances, coffee parties, draws, quilt sales, bake sales, and the antique market through the last 12 months, and have managed to raise the astounding sum of \$50,000.

The fundraising began last year under past president Jennifer Chalmers, and was completed under the auspices of President Anne Robertson.

At the regular meeting of the Auxiliary on Monday, Chalmers,

Robertson, and Auxiliary treasurer Sandra Armstrong, presented the final deposit of \$25,000 to complete the commitment to the hospital

fund to HDH Board vice-chairperson Hilda Sibthorpe.

## No donations

Unicef Ontario will not be getting a donation from the Midland Parking Authority, the board has decided unanimously. The board's policy has been to not make charitable donations.

Unicef wrote to the mayor to explain that for the last few years Unicef has raised over \$3,000 by asking mayors and councils across Ontario to consider donating the parking fines collected on any one day.
