If It Cost You \$1,000 Would Your Insurance Pay ...

\$1,000...

When many people insure their personal belongings they make the mistake of believing that they are covered for full replacement value.

Sadly that's not always the case. Some policies will only pay out a fraction of what it would cost you to replace your possessions at current market value.

or \$700...

To find out where you stand you should talk to one of the I.B.A.O. insurance brokers listed below.

Is there a difference between an I.B.A.O. broker and an agent?

Yes there is. An agent works directly for one insurance company.

or \$500...

An I.B.A.O. broker is independent and unbiased.

Your I.B.A.O. broker shops around for value, recommends the right coverage at the right price and makes sure your interests are professionally represented when you need to make a claim.

So call your broker and ask if he or she is a member of the I.B.A.O.
