

### Excellent workers!

These are the construction workers who helped build Lafontaine En Action Campsite at the popular ski area. Work was completed last Friday and the site

was opened officially on Canada's Birthday. Some work is still being done to the site, however, it is still opened to the public. There are 150 campsites to choose

from, with 25 of which contain, hydro, water and sewage. The landscape will remain natural, with just interior work to be done, at the site.
