

PREVENT FIRE

Nine times out of ten you have a choice. There are precautions you can take around the home, in your place of business, on the farm, to prevent tragic fires from ever starting. Faulty wiring, careless cigarette smoking habits, cluttered areas are just some of the ways to invite disaster, and once a fire takes hold, the destruction to lives and property can be immeasurable. Act now, and avoid a tragedy later on. Observe good fire safety practices and learn the correct procedures to take in the event of a fire. Keep alert to the dangers and choose to fight fires before they start.

FIRE PREVENTION WEEK Oct. 7 to 13

Firefighter's need everybody's help in preventing fires
