

Liberal says it is time for a change in Ontario

by GEORGE MacDONALD

I believe that Ontario needs a change of Government and that the Liberal Government offers Simcoe East Voters that chance for a better future with new policies being implemented.

Job creation:

The Liberals intend to spend \$466 million to stimulate a minimum 72,000 new full-time jobs without increasing the size of the deficit. Job-creation funds would come from program cutbacks, eliminating government wastes (i.e. Suncor, \$260 million), re-direction of money from existing programs, and the revenue growth resulting from increased employment.

Small business:

Promote small business incentives, tax breaks, and wage pay back to small

businesses hiring on new employees.

Health care:

Have a first class health care for all in Ontario by eliminating OHIP Premiums, banning extra billing by doctors and providing denticare for children and seniors; also provide home care programs for seniors.

Affordable housing:

Provide \$100 million for immediate construction of non-profit co-op housing in Ontario. Lower permitted rent increases without review to four percent.

Equal opportunity:

Ontario Liberals will ensure equal pay for work of equal value and provide equal opportunity for women in the workplace.

Education:

Enhance career counselling and put a greater reliance on teaching skills

relevant to the workplace. Increase provincial share of education to 60 percent. Set up legislative committees to examine the issue of separate school funding. Offer fair and equal opportunity access to universities.

Environment:

The Liberals would amend current legislation to require government to enforce existing legislation - stop dumping toxic into municipal landfill sites; enforcement to eliminate illegal haulage; support PCB distribution program.

Farm incomes:

Liberals have a firm commitment to make Ontario farmers self-sufficient in foods. This means making farmers secure by introducing capital loans programs to assist them in improving efficiency, making money

available to beginning farmers and preserving land for food production.

Beer & wine:

Liberals would make it possible to buy Canadian beer and wine in independently-owned grocery and variety stores. This would break up the monopoly government and breweries have over the sale of beer and provide you with a real choice about where and when you will buy domestic wine and beer.

These stores would be required to adhere to the regulations of a licence. Distribution jobs would be created and independent grocers would benefit.

Liberals will take action on your behalf because our policies and programs are backed by a genuine commitment to make your Ontario a better place for you.

Mark, George Jr., and a friend

Sons Mark and George Jr., and family friend Vince Deschamps, at rear, at work Monday in Midland election campaign office of Liberal

candidate George MacDonald. Tomorrow, workers in all campaigns will realize the fruit of their labour.

Miller in Orillia today

Premier Frank Miller is expected to be in Allan McLean's Orillia

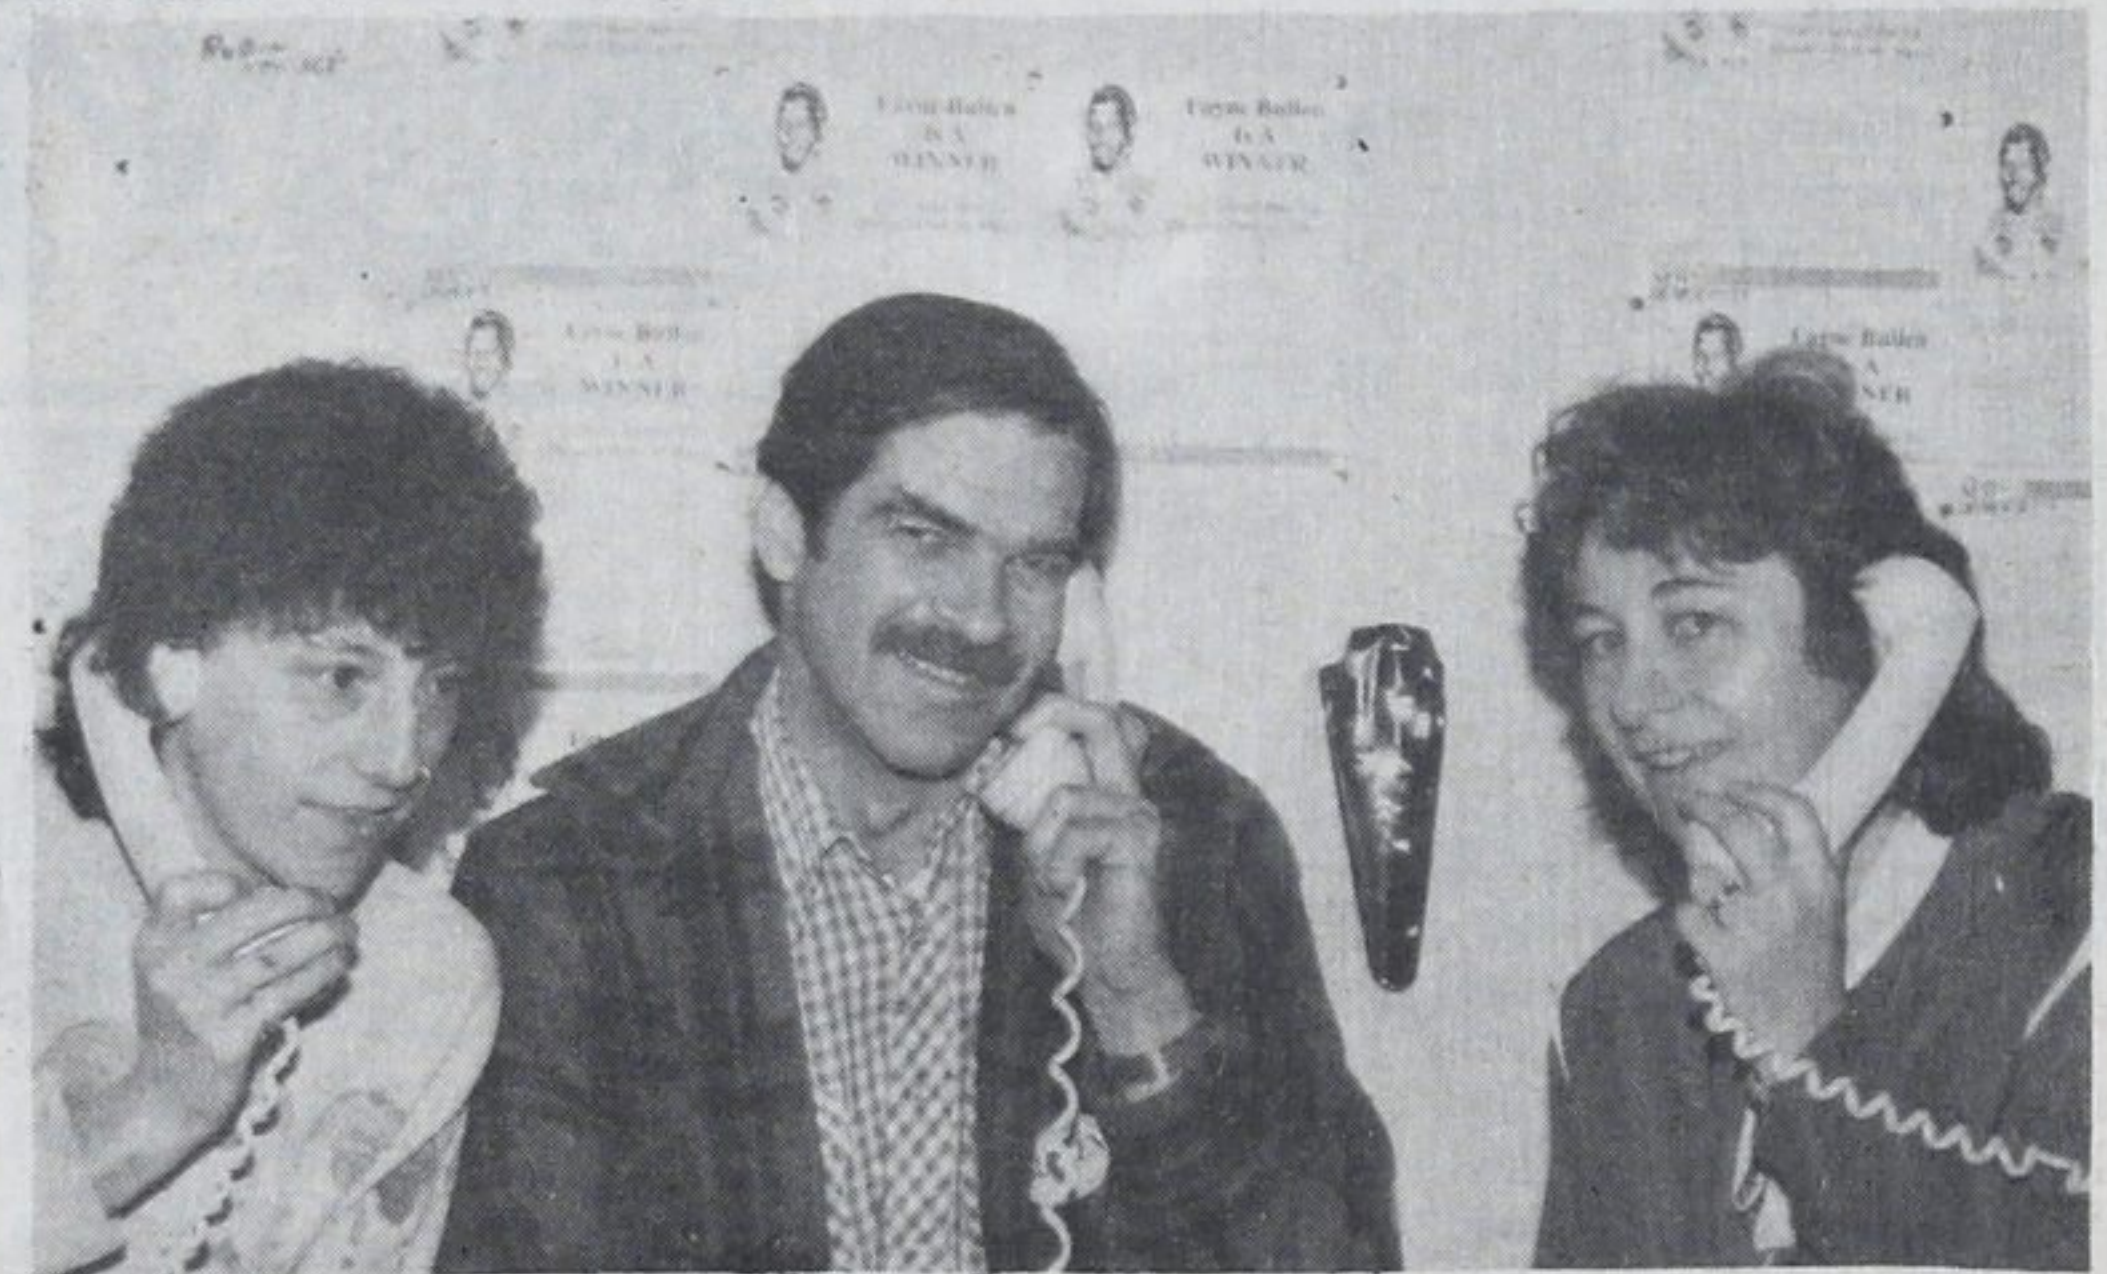

election campaign headquarters tomorrow, between 4 p.m. and

4:30, a McLean re-election campaign spokesman said

yesterday.

=Election '85=

Ontario

Lots to talk about

These campaign workers have discovered the telephone to be a critical tool for modern day electioneering. With their "ears to the grindstone" Monday, at Simcoe East NDP candidate Fayne Bullen's Midland headquarters, are from LEFT: Campaign Worker Diane Moreau, Campaign Organizer Hal Tate, and Campaign Office Manager Mena McGill.

Re-elect
