**HONDA LAWNMOWERS**

**HONDA CUTS TIGHT SPOTS WITHOUT CUTTING CORNERS.**

We do it with the HR173PDC. It may be the littlest mower in the Honda line, but it can solve a lot of lawn cutting problems. Tight spots? Large 7" wheels make it a breeze to maneuver. City lots? The blade cuts a convenient 17" swath across smaller urban lawns, but can handle country lots too. Weighty matters? A housing made of Honda Super Tough Polymer makes the HR173PDC both very light and very tough. Add an easy-empty grass bag and a quick-stop flywheel brake and it's easy to see that the only things Honda cut back on were the size, and the price.

**HONDA TILLERS**

**ANOTHER EARTH-SHATTERING IDEA FROM HONDA.**

Here's something every gardener should have. It's Honda's new F210C tiller. A lightweight 26.5 kg (58 lb), it makes unearthing a plot easy. The handlebars adjust for comfort and for storage. And a handy clutch lever lets you stop those big 560 mm (22-inch) tines without stopping the engine. Like all Honda tillers, the 2.4 horsepower F210C has a reliable four-stroke engine with ball bearing crankshaft and cast iron cylinder liner. And if you need more power, Honda's got six models right up to 7.0 horsepower, to cover just about any size garden. There's nothing earth-shattering about the F210C's price. But if easy growing is your concern, it can make all the difference in the world.

**WE'VE GOT ONE IN YOUR SIZE  
AFTER NEARLY  
100 YEARS, WE  
KNOW OUR FIELD.**

Some other manufacturers have only recently entered the mid-size market, and they have done so by putting their names on tractors built by other companies. You can rest assured, however, that all Kubota tractors are designed and built by Kubota to its own exacting standards of quality.

Kubota offers the most complete line of mid-size tractors in the world. Nearly a century of expertise stands behind them. Come see our tractors and find out what that kind of experience means.

Today, many people know about Kubota mid-size tractors. But few are aware that Kubota's roots date back to 1890.

Since then Kubota has grown to be one of the largest manufacturers of agricultural equipment in the world.

Kubota is now in its second decade of selling diesel-powered tractors in America. With dealers coast to coast, Kubota has become a well-established name, synonymous with economy, dependability and durability.
