**MYSTERY**

A novel's a good place for a mystery, not your drainage system.

Clay tile...what you see is what you get. When it's up to strength, your own two feet will tell you, Just stand on it. But even without testing, you can be sure clay tile's up to standard. Every foot is manually inspected before shipping. With plastic tubing, there are many more variables involved. Short of lab testing, the quality remains a mystery. Choose the drainage system you can be sure of. Clay tile.

CLAY TILE... The little extra you pay isn't money down the tube.
