Seniors seminar well received

by Alleyne Attwood
The local branch of the Canadian Diabetes Association scored a real "coup" in their choice of speaker at a recent workshop for Seniors. Held at Georgian Manor, the day-long seminar looked at a variety of subjects on interest to Seniors, from an exercise session which was very well received and orchestrated by Dianne Elaise, to a thought provoking address by Frances McHale.

As chairman of the Ontario Advisory Council on Senior Citizens McHale is well qualified to talk about the wellness approach to growing older.

McHale, the previous week, had along with three other recipients, received from the Premier an award for her work with Seniors and Senior organizations in the past years. Her work has been tireless both as a

volunteer and as a professional practitioner in the field of aging.

The local branch was privileged to have this distinguished woman as speaker.

Earlier in the month, delegates President Dennis Nesbitt, Regional Chairman Frances Moreau, members Ingi and John Gould, Suzanne Clifford and Alleyne Attwood attended a Regional meeting of the Diabetes Association at the Sun Dial, Orillia.

Speakers at the meeting were from the Ontario Division, London.

Purpose of the meeting was to introduce and discuss what is being call-

ed the "Awareness Program" of the Diabetes Association. This will take place in October and will highly publicize the Association and its mission, prior to the annual fund raising campaign in November.

Facing the reality of multicultural Canada, it is of interest to note that there is now available basic guidelines for Diabetics in fourteen languages. These are Chinese, Finnish, French, Greek, Hindi, Italian, Polish, Punjabi, Portuguese, Russian, Spanish, Ukrainian and Vietnamese. For more information in this regard call Fran Moreau at

549-7442.

A final executive meeting of the local branch was held on Moreau's houseboat anchored off Red Dock, after a run up the Bay.

Do not forget that Saturday June 21st is the big Driveway sale of the Association, held at the fifth house up Golf Club Road, Midland. There will be baking for sale as well as some crafts - and lots of really good stuff. Among items seen are several bicycles, tables, pool pumps and lamps.

If anyone has items to donate to this annual sale, call 526-5295 or 549-7611 if pick-up is required.

PIONEER
INTRODUCES
THE BIG SCREEN
PROJECTION MONITOR SD-P40

Spend five minutes watching the SD-P40 Projection Monitor and television will never be the same again! Because Pioneer technology has eliminated the problems plaguing projection TV systems, giving you all the benefits of regular television plus movie screen-like size. The picture is outstanding in brightness, colour balance and focus, and stays that way right to the edge of the screen. Better still, you no longer have to sit directly in front of the screen, because the picture is bright and sharp wherever you sit in the room, with none of the breakup in colour resolution that characterizes most projection systems. Instead of the washed-out skin tones and tints common to most systems, the SD-P40 projects highly accurate colour. On a 40 inch screen, the effect is stunning.

As befits a revolution in television monitors, the SD-P40 is cable compatible with 139 channel input capability, plus inputs for a LaserVision player and two VCRs. With its 12 watt stereo amplifier and twin 6½" speakers, the SD-P40 is not so much a television as the core of an audio/visual centre. The revolution even continues to the Pioneer System Remote Control, which not only operates all monitor functions, but also a Pioneer LaserVision player and VCR bearing the **SV** mark. But don't listen to us. See for yourself. Television will never be the same again.
