

Club looks for student

For the first time since its inception five years ago, the Penetanguishene Rotary Club will be participating in their International Youth Exchange program.

Club officials will soon be faced with the difficult task of selecting the club's first exchange student. The individual chosen will begin their year exchange next August.

According to the Director of International Services Robert Cummings, it is an opportunity of a lifetime for students between the ages of 15 and 17 to travel Australia, Belgium, Brazil, Denmark, Finland, Holland, Japan, New Zealand, Sweden, Thailand or West Germany.

Cummings has made presentations at both of the high schools in the Town, and from application forms those interested filled out, a committee will try to choose an appropriate representative for the local club.

The International Youth Exchange Program is a reciprocating one, where a rotary club may send one local student on exchange, for each foreign student it accepts.

Penetanguishene's first visiting exchange student, Effren Rayo Torres of Mexico, returned home in August after a year's visit

to the Town. At a presentation to Ecole Secondaire Le Caron students Friday morning, Cummings explained the many benefits of the excursion.

Although the club does not cover the student's airfare to their chosen destination, Cummings said it is still a deal with most airlines offering special student fares. The Penetang club will be responsible for all medical bills incurred during the year.

As part of the deal, the travelling student will receive a monthly allowance of about \$100 from the Rotary Club in the town or city they are visiting.

Once at their destination

the Penetang representative will be billeted at the home of one or more Rotary members for the year. The individuals are also required to attend school in the exchange country.

As well as studying in another country for one year and living in the homes of students of foreign country, students will have the opportunity to learn the habits and family conditions of other countries, while meeting with many foreign groups.

Cummings explained with all the paperwork necessary for the trip, including applying for a student visa, it takes a year to prepare for the exchange.

Deadline for the applications is Sept. 30.

Speared again

TRW Midland's vehicle safety systems division has received the SPEAR 1 award, General Motors Corporation's highest honour to one of its suppliers. This is the second time that the Midland plant has received

the award. From left are Joe Wrubel (SPEAR survey representative), Ken Gendron (ACTWU Local 1698 president), and Wayne Latour (CAW Local 1411 president).

Seniors activities

Indoor Shuffleboard will again be available at the Midland Civic Centre. Starting Monday, October 6 Shuffleboard will be played Mondays and Wednesdays from 1 to 4 p.m. There is no charge and everyone is welcome to join the fun.

Fitness Classes for Seniors will be held at the Seniors Centre this Fall. A six week program will be held Tuesdays and

Thursdays from 10:30 to 11:30 a.m. with Lise Pyburn as Instructor. Fees are only \$10.00 for members and \$12.00 for non-members. Registration forms are available at the Seniors Centre and the Recreation Office. First session is on Tuesday, October 7.

Films are shown at the Seniors Centre every second and fourth Friday of the month, starting October 10.

Company wins safety award

TRW vehicle safety systems division is the recipient of the SPEAR 1 award, General Motors Corporation's highest honour to its suppliers.

The SPEAR 1 recognizes automotive suppliers that use effective quality practices and systems to consistently produce reliable and defect-free products.

TRW vehicle safety systems' operations in Midland and Penetanguishene supply

seat belts to the automaker, primarily to GM's Oshawa, Ont. assembly plants.

This is TRW's second SPEAR 1 award from GM. In 1983, the division received its first award and was the second of 2,400 suppliers to be recognized. In July, 1986, GM conducted another quality audit and found that TRW had maintained the same high quality standards over the past three years.

"Our outstanding quali-

ty performance is the result of a total effort of over 1,000 employees and a real company commitment to make the best seat belts in the industry," commented Gene Kutcher, general manager. "We value this award from GM because it indicates GM's trust in us to help them make high

quality vehicles in North America."

TRW vehicle safety systems, division is the largest supplier of occupant restraints in the North American market. The division, which has operations in Canada, the United States, and Mexico, is a part of TRW Inc.
