## Presenting two terrific ways to save with our System 1000 components

**ONE** — save \$200 on the system components including a turntable, amplifier, tuner, equalizer, tape deck — even a remote control! Each component in System 1000 is perfectly matched to complement the rest both electronically and esthetically. Belt-drive turntable comes with magnetic cartridge, and features cue control. 100 watt amplifier has CD and TV sound inputs, and dual LED power output meters. Digital synthesized AM/FM-stereo receiver features automatic search tuning, 7-station memory and feather-touch controls. Seven-band equalizer gives you custom tailored sound. Dual cassette deck features Dolby† B, metal/CrO<sub>2</sub>/normal

selector and two 5-LED recording level meters. At this incredible sale price, you get a stereo system that sounds sensational and looks even better! 31-1130\*. Reg. 999.95 ..... **sale 799.95**

**TWO** — save \$340 when you buy the System 1000 components WITH a pair of great sounding Optimus 900 speakers! You get all the benefits of the system described above (31-1130) and the superb stereo sound that only Optimus speakers (40-1121) can produce. With tuned port enclosure and liquid cooled tweeter. Get fabulous sound and super savings today! Reg. sep items 1439.85 ..... **sale 1099.00**

## Accurately balance your system and enjoy super stereo and savings

Combine our 10-band equalizer (31-8000) and omnidirectional mike (33-1063) to turn any room into a perfect listening room. "Pink noise" from the equalizer

picked up by the mike is analyzed to give you a visual measurement of the room's acoustics. Reg. sep. items. 299.90, ..... **sale 269.95**
