

Y's Men's give thanks for music festival

The Midland Y's Men's Club, in co-operation with the North Simcoe Arts Council and area music teachers, successfully concluded this year's Music Festival with the Concert of the Stars performance on May 31 at Knox Presbyterian Church in Midland.

The organization and supervision of the music festival has undergone many changes throughout its 40 year history. This year, in addition to the many donors and benefactors listed below, several volunteers need to be singled out and congratulated.

Many thanks to Ruth Weldon, music festival secretary; Louise Bath, registrar, along with the Midland Y's Men who have shouldered the year-long preparations and arrangements necessary to make this event a success.

Poet at Burkevale school

Students at Burkevale school received a special treat recently - Robert Service delivered by actor Charles Hayter who performed his role in period costume.

Scottish-born Service wrote of the Klondike goldrush. He spent eight years from 1894 in the Yukon and his poetry brings to life the characters and the rugged environ-

ment from that period.

Hayter, also British-born, arrived in Canada in 1953 and studied theatre in Toronto. He has appeared on a variety of radio, television and movie productions.

The grades four to eight students at Burkevale felt some of the excitement Hayter feels doing the one-man show and telling Service's life through verse.

Hayter as Service presents a 75 minute show called, 'A Taste of Robert Service'. The review contains such Service classics as, 'The Cremation of Sam McGee' or 'The Shooting of Dan McGrew'.

Hayter says the purpose of his show is to help school-children learn that poetry can be fun to read, fun to listen to, and fun to watch.

Down he goes

During his half hour on the seat of the dunk tank at the Villa Community Care Centre on Saturday, Dr. Peter Cameron more than once dropped into the tank of

water below. Buyers of three chances to send the person sitting on the dunk tank seat into the water contributed to the fight against Alzheimer's disease.
