

Waterfront prices up

A recent survey released by a major real estate company shows the demand for waterfront properties across the province is soaring.

The survey found that Midland-area properties rank among the highest-priced waterfront properties in the province.

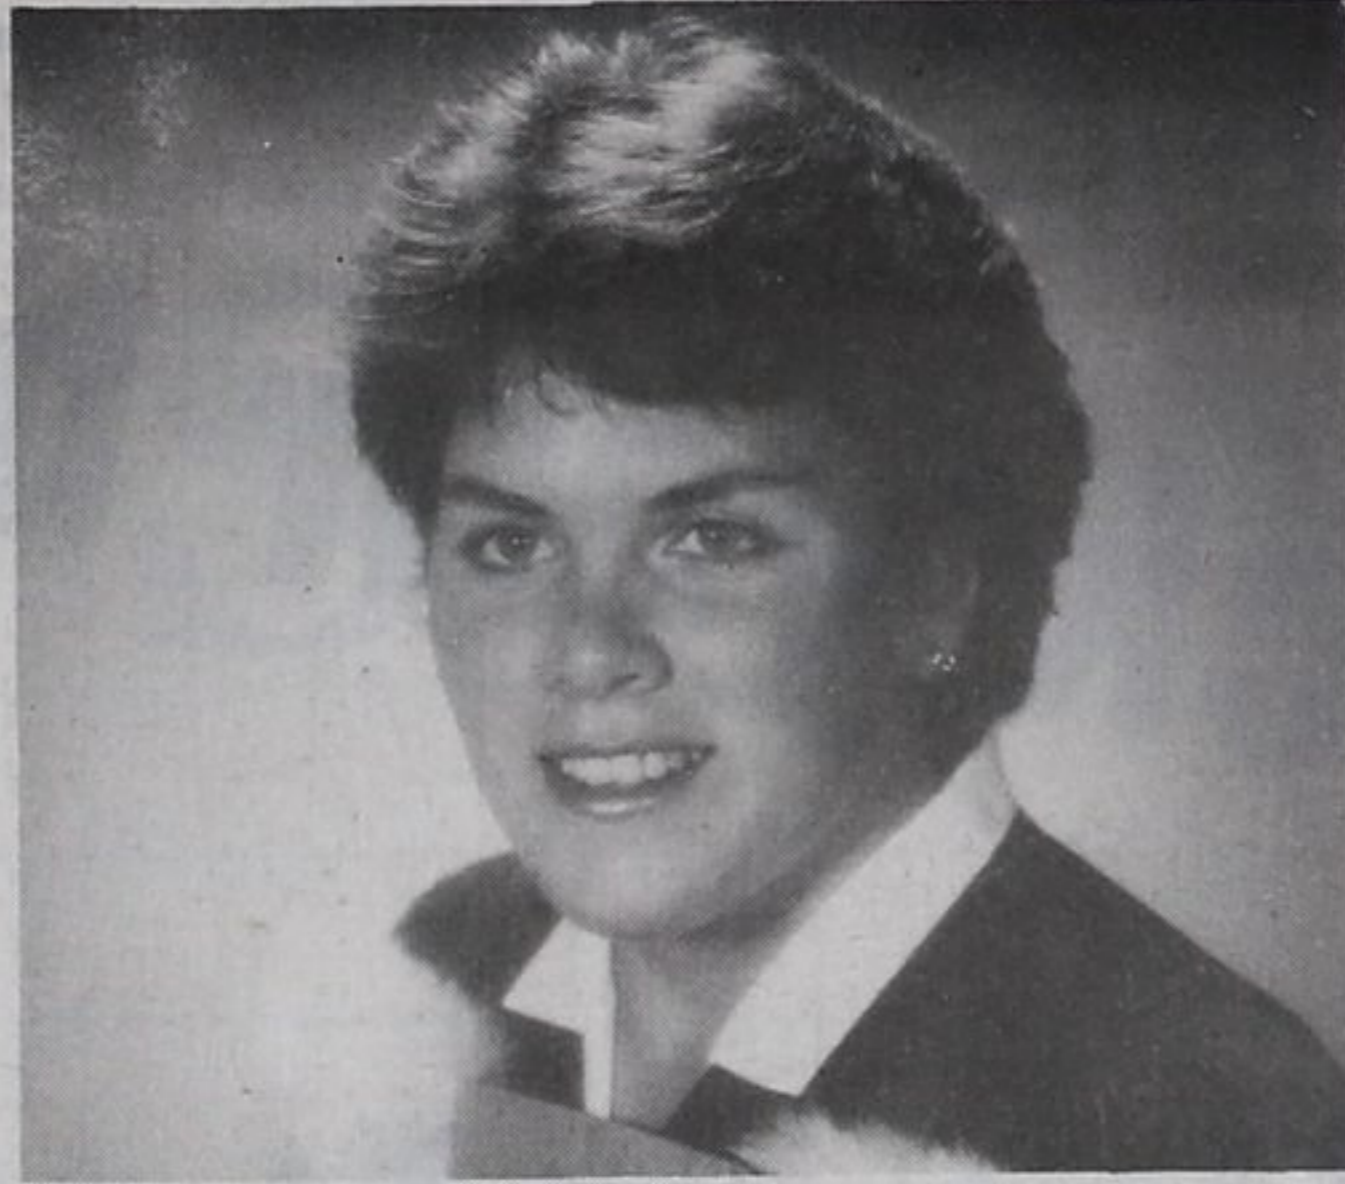

A three-bedroom winterized house on waterfront property in this area is said to range from \$125,000 to \$150,000.

The survey, produced by Royal LePage, indicates a shortage of remaining waterfront lots has driven the price of the remaining lots higher.
