Flame-throwing hose

Members of the crew of the movie Fireballs yesterday morning were building a box open at one end and closed at the other end with a glass sheet. They were

on the shore of Little Lake Park preparing to film fire, instead of water, coming out of a fire truck's hose.

Filming starts at Little Lake

Filming of the movie Fireballs began on schedule in Midland yesterday.

Yesterday morning the movie crew began their

shooting schedule at the east end of Little Lake Park. They filmed a scene using local resident Clint Truax's vintage Bickle fire

truck. Another scene called for the simulation of flame instead of water issuing from a fire hose. A stuntman was to be filmed

on fire jumping into Little Lake. Making of the movie will continue in Midland until Sept. 22.
