

### Ready on the set

Fireballs director Charles Weiner watches during a rehearsal for a scene in the movie, last week outside the Midland Fire Depart-

ment. Cast members on the far side wait for the actor playing the movie's fire chief to ride a bicycle in front of them. The Fireballs crew

is scheduled to be in Penetanguishene today, inside the Brule.

## Boat show to take over dock

The second Midland Town Dock Boat Show is expected to be at least as comprehensive as was last year's show.

Organizers hope that Vic Carpenter of Port McNicoll will be able to bring the 33 foot, 1920s model, wooden hull, boat which he currently is building. The boat will have a 16 cylinder, 1,000 horsepower engine. Represented at the boat show on Sept. 26 and 27 will be the range from rowing boats and racing sculls to 40-foot-plus power boats.

Many local marinas, boat manufacturers, and marine-related product sellers will be represented. Doug Dawson with his

computer search of boats for sale in Ontario is returning.

Boats and the rest of the boat show will take up most of the berths and the surrounding town dock area.

**ELMVALE SALES STABLES LTD.**

1 mile west of Elmvalle on Hwy. 92

Featuring LIVESTOCK AUCTIONS EVERY THURSDAY EVENING

Commencing at 7:30

Cattle, Pigs, Calves, Horses

This sale provides EXCELLENT MARKETING for both buyer and seller

Also featuring one of ONTARIO'S LARGEST FLEA MARKETS

Operating from April to November

Hours: 9 a.m. to 11 p.m. every Thursday

### Board studies student allergies

Home studying and "controlled-environment classrooms" are two of the options a school board committee is looking at to deal with the problem of children with severe

allergies. The Healthy School Environment Committee, headed by Bill Paulin, presented its interim report at the last public

school board meeting Aug. 19.

The committee is expected to present its final report to a board meeting in the "near future".

## TEACHERS' PET!

On Labour Day, the Historic Naval and Military Establishments in Penetanguishene close to the general public, after one of our best summers in history.

But we're still open to hundreds of students who come to relive Canadian history in the exciting authentic Establishments setting.

Take Samuel Lount. (Grade 7 and 8 youngsters do.) **1837: The Samuel Lount Story** is a half-day adventure in hands-on history which runs from Nov. 2 to Nov. 27.

Youngsters and their teachers live a day in 1837 as Conservatives or Reformers, entrepreneurs or farmers. They play their assigned roles, confront and debate with each other in a day that makes Canadian history as real and bracing as the breeze off the Bay.

Kids love Establishments Education programs. Teachers tell us adventures like **1837: The Samuel Lount Story** really enhance the joy of history.

You can be proud of this living history resource in Penetanguishene.

## Small craft Harbours. A revitalization program.

This program was created with the safety of people and the protection of boats in mind. It will:

- put ongoing maintenance of existing small craft harbours and facilities on a sounder financial footing;

- re-open harbour facilities closed for safety reasons;
- repair damage caused by storms or high water levels;
- launch new services and facilities at some harbours that will meet the expanding needs of fishermen,

yachtsmen and local industries.

But more importantly local harbour authorities created under this revitalization program will, with the Federal government support, give fishermen and other users a more direct role in the planning, management, operation and maintenance of their harbour.

Project proposals will be analyzed and funded on their individual merits, and announcements on funding will be made as decisions are reached.
