JUNIOR ACHIEVEMENT

Try it on for size...!

- Develop self-confidence
- Acquire leadership skills
- Discover career opportunities
- Learn how business operates
- Gain recognition

What! Me in Business...

Yes you! Through JA you can become a business director and major decision maker in a real business which deals with real products and real profits.

You and your team of directors will meet once a week. With the help of professional business people your team will manage every aspect of your business venture... production, marketing, finance, administration and personnel.

Through it all you will gain leadership experience along with plenty of practical knowledge about how business works and profits are earned. You will be preparing yourself for your future. It's a simple reality that in major corporations across Canada today there are many top executives who began their careers by joining a JA Executive team while they were in high school.

It's Exciting! Fun!

Who says you can't mix business with pleasure. In fact, in JA that's one of the rules. You should enjoy the business adventure before you. It should be fun, working along with other people who share the same attitudes you have... meeting professionals... getting a chance to gain recognition for your talents and accomplishments.
