

Choose a quality mattress for better sleep

GREAT SELECTION

Shop for living room or bedroom in one stop! With the new expansion at Sleeper's Choice you can now shop for good quality bed sets or buy the latest style of sofa at Sofa City.

Sleeper's Choice or Sofa City is located at the Cedar Pointe Business Park in Barrie, and both sections offer you a wide variety of selections to choose from.

One factor in getting a good night's sleep is to have a good quality mattress. By choosing a mattress with a good combination of comfort and support you will rest better and possibly avoid waking with a sore back.

If your present mattress looks a bit lumpy or you tend to get lost somewhere in the middle, it's time to visit Sleeper's Choice in Building 5 at the Cedar Pointe Business Park in Barrie.

Sleeper's Choice is a family business owned by Peter Lalonde. Peter and his wife Kathy live in the Barrie area and one of their main concerns is dealing with the local people.

Peter has 12 years experience in the furniture business and prior to opening Sleeper's Choice, he saw Barrie's need for a quality mattress shop that offered reasonable prices. Sleeper's Choice stocks Serta, Perma Foam, Guardian and Marshall mattresses. These mattresses are all top name and are not homemade special. Honest warranties come with everything Lalonde sells.

When he started the business Lalonde decided to specialize in brass beds, mattresses and sofa beds. His main aim is to satisfy the customer looking for something unique or different that cannot be found in the average furniture store. While doing this he can also offer reasonable prices because of volume buying.

There are more than 100 brass beds to choose from with as many as 20 different styles on display in

the showroom. The store has a selection of brass accessories including night tables, Cheval mirrors and lamps to compliment your choice of bed.

Lalonde also carries bedroom pieces in solid oak and other accessories such as wardrobes or the perfect picture for your bedroom wall. Currently there is a limited selection, but in time Lalonde plans to expand into a large selection of comforters, sheet sets and duvets.

Lalonde recently expanded Sleeper's Choice to include Sofa City. Here you can find all the latest in sofa styles. There is sure to be the right sofa for you whether your taste runs to ultra modern, super comfy or traditional. All styles are on display for you to choose from.

If you are shopping for the bedroom or the living room, visit Sleeper's Choice or Sofa City at 506 Cedar Pointe Business Park, Highway 400 and Dunlop Street (Highway 90).
