Fire!

Battling the blazes

Fire! It's the biggest enemy of Ontario forests, destroying over half a million acres of timber every year. On June 30th at 6:00 p.m., CKVR's award-winning Close-Up, looks at how those fires are fought in Battling the Blazes. Reporter Suzanne Legue and camera/producer Lawrence Oakley take viewers inside Kenora 14, the worst forest fire in the province this year.

The Close-Up crew meets the people who work in the hot, smoky

bush up to sixteen hours a day, fighting to contain the blaze. "You can't outrun it," says firefighter Phil Couture, "when it's really going you can throw everything at it and it's like spitting in the wind." Legue talks to residents of the high-risk fire zone area, who face the constant threat of evacuation and loss of property. Says one man whose cottage narrowly misses being burned down, "Everyone knows the risk, but it's human nature to think it'll never

happen to you." Watch BATTLING THE BLAZES, June 30th at 6:00 p.m. on CKVR.

We have the only under 60-hp tractors with factory cabs.

Wind, rain, snow or cold, you can work in factory-cab comfort in both our 42-hp Ford Model 3910 and 52-hp Model 4610. Only Ford New Holland offers factory cabs for these power sizes. You get two doors, opening windows, windshield wiper, dome light and three-speed pressurized heater/defroster. Now you can work in quiet comfort.

Is your tractor built as well as a Ford?

SQUARER SQUARES AND ROUNDER ROUNDS

- It's the haymaster's choice! The John Deere baler line; full selection of square or round baling equipment.
- Four square balers that kick out solid, square-sided bales that stack like bricks... dense bales that make the most of your space. No "banana bales" from this bunch.

- Three round balers that make a tricky job as simple as driving your tractor. You get perfect, firm, round bales every time. Easy-to-handle 650- to 1850-pounders.
- Take your pick. See us when you want to put your haymaking in better shape.

HESSTON
THE PRIME LINE

Model 530 Round Baler

Move Up to High Capacity Round Bales
The Hesston Way, With Simplicity,
Ruggedness and Reliability.

Model 530 Round Baler

You don't need to buy a bigger tractor to move up to Hesston Round Baler performance. You can operate the Hesston Model 530 with just 30 PTO hp at 540 RPM. And the 530 is designed for smaller operations with many standard features.

Like our larger round balers, the Model 530 features direct-feed Open-throat design for fast bale starts and easy operation. The

variable-volume bale chamber also gives you the ability to make bales from 30" to 54" adding greater versatility to your baling and feeding operations.

So if you need a baler that will handle a wide crop variety plus give you great maneuverability, capacity and variable bale size while still utilizing your present 30hp or more tractor, move up to the Model 530. It's rugged, reliable, simple and best of all, it's a Hesston.
