# INFORMATION CENTRES

## BIG CHUTE GENERATING STATION INFORMATION CENTRES

If you live, work or vacation in this area, this may interest you!

For the past year Ontario Hydro has been involved in an environmental study for the redevelopment of the Big Chute G.S., located on the Severn River.

All studies on the project are being conducted in accordance with the requirements of The Environmental Assessment Act, and include technical, environmental, and economic aspects of the redevelopment project.

These studies will be used to assess the potential impacts of redeveloping the generating station. The results of the environmental assessment will be documented and submitted to the Ministry of the Environment in 1989.

We would like to discuss the project with you. Hydro staff will be available to hear your comments, questions and concerns at the information centres listed below. Maps and other project information will be available for your review.
