## Electrical Equipment Designer

We are looking for a creative, versatile individual at our colour picture tube facility in Midland. This position involves the design and commissioning of new automated process equipment and the optimization of existing manufacturing equipment.

Preparing specifications, designs, budgets and schedules, expediting deliveries and supervising the commissioning process, you will also be expected to provide ongoing support to manufacturing in developing and implementing productivity improvements.

A graduate Electrical Technologist or Engineer, you have a minimum of 5 years' recent electrical control design experience acquired in a manufacturing environment. Experience and interest in computers and computer programming would be an asset.

If you are interested in the challenge of helping improve and expand a modern manufacturing operation, and are looking for all the potential that automation in a hands-on environment can offer, we'd like to hear from you.

Please send your resume, along with salary requirements, in confidence, to: **Mrs. J. Blanchard, Mitsubishi Electronics, 1000 Wye Valley Road, Midland, Ontario L4R 4L8.**

## MACHINIST

A leading manufacturer of steel castings has an immediate requirement for a machinist.

Applicants should have their certificates of qualification and have served a recognized apprenticeship, or have at least 8 years of progressive and related experience in the machinist trade.

Must be able to demonstrate the ability to make complex set ups on a wide variety of machine tools to very close tolerances.

We offer a competitive rate of pay and an excellent benefit package. Please submit a detailed resume in confidence to:
