

Making life easier

Auxiliary police help the force

Assistant cops

Penetang Police Chief Robert Cummings is flanked by two new auxiliary police officers. On the left is Paul Ryan and right is Darryl Phillips. The men will perform duties such as crowd control, walking a beat and directing traffic.

Two auxiliary officers will be making the lives of Penetang police officers a little easier.

Paul Ryan and Darryl Phillips were sworn in Feb. 9 and are expected to do a minimum of 10 hours of duty per month, plus attend further train-

ing meetings, all without pay.

The two basically are a uniformed unity doing regular details such as car duty, crowd control, foot patrol, traffic and emergency calls.

The auxiliary officers must take these duties

seriously and cannot disobey orders without being ejected from the force, just like any of the regular members of the department.

They must also dress and wear their hair as short as the regulations demand, which also includes facial growth.

BERTUCCA

Story hour

The Penetanguishene Public Library is featuring the movie, *Le Ballon Rouge*, Saturday at 10:30 a.m.

The story will be presented in French by Dianne Pennock from the Ministry of Education of Ontario.

The show is for preschoolers aged 3-5 years old. Admission is free.

Obituary

George I. Beaudoin, 79

George J. Beaudoin, 79, of Penetang, died after a lengthy illness at Penetang General Hospital and was laid to rest at St. Ann's Cemetery Feb. 11.

George, a former owner of the Lasalle Restaurant and a member of the Legion, also served in the armed forces in Labrador, Italy and England.

He is survived by his

sons Donald and Daniel, his daughters Barbara Hawke and Frances Worrell and his sister Irene Legault.

The service was under the auspices of the Royal Canadian Legion, Branch No. 68, Penetanguishene, which was held Friday at 7:30 p.m. in the Penetanguishene Funeral Home. Parish prayers were at 8:00 p.m.

WE'VE GOT THE BEST IN THE BUSINESS

YOU'RE TALKIN' TO THE "BOSS"

Get On The Right Wavelength

If you own a commercial vessel, including a fishing vessel, 20 metres (65 feet) or more in length, please make sure that you're on our wavelength: 406 MHz.

The 406 MHz Emergency Position Indicating Radio Beacon (EPIRB), a technological innovation that could save your life, is the fastest and most precise location device on the market.

When activated in an emergency, the 406 MHz EPIRB emits a specially coded signal allowing us to pinpoint your location at sea within a range of two kilometres.

In addition, this signal allows us to identify your vessel — thanks to the registration card you filed with us when you got your EPIRB. We'll know the type of vessel we're looking for, as well as the number of crew members.

Within moments of receiving your EPIRB signal, we can

begin to implement the appropriate rescue procedure.

Remember: All Canadian commercial vessels over 20 metres (65 feet) in length must conform to the new regulation by having a 406 MHz EPIRB on board by May 31st, 1989*.

For information on how to acquire and register an EPIRB as soon as possible, please contact your nearest Canadian Coast Guard office.

Vessels now carrying an EPIRB or similar apparatus operating on the frequencies 121.5 MHz and 243 MHz are exempt from carrying the 406 MHz EPIRB for four years as of May 31st, 1989.
