those who have their work appointed them, see to it that they do their duty, and they will find the young men are as ready to take their places in the ranks and lend an helping hand in carrying out the object of this association as they are in the promotion of every thing which is for the benefit of themselves or the community.

VINDICATOR.

To the Editor of the York Commonwealth.

MR. EDITOR—Sir: In your editorials to young men I have noticed that you frequently deplore the want of good debating schools, and at the same time allude to those now in action. As I know but one place near here where discussions are held on various subjects, it seems to me that you intend your remarks for it. Happening to know a little about that society, I wish to inform you that in it are no men yet out of their teens, that there are none who talk trash and twaddle, and that leading men do not altogether stand aloof from it, but, on the contrary, we have some young men who actuallly do talk sense, and are ashamed of twaddling, and some old men who are considered equal in intelligence and talent with any in the county.

But, Mr. Editor, notwithstanding what we know we still find ourselves deficient in many respects, and would suggest that you devote an article on the proper manner of forming and conducting a good Debating Club, which I assure you will be perused with pleasure by your correspondent

ALIXES,

RICHMOND HILL, Dec. 21st, 1858.

THE NORTHERN RAILWAY.

From the Globe.

The Speech of Mr. Cumberland in the Board of Trade yesterday reveals a very pretty state of affairs between the Government and the Northern Railway direction. Cayley and Macdonald have evidently been systematically humbugging the managers of the road and their friends in Parliament, with promises of assistance, and have left them in the lurch at the last. It has been the same with all enterprises of a like kind; too weak and too corrupt to take the straightforward course and refuse aid, they have been keeping the railway in a state of beggary, waiting for assistance which they never intended to render. There never was a more melancholy spectacle of mismanagement and extravagance, of weakness and corruption, than is presented by Mr. Cumberland's speech. The company has been running into debt to the Government over thirty thousand pounds a year, and the Ministry have never had the courage to sit down and consider seriously what they should do with an enterprise so situated, and which was, in addition, an applicant for further assistance. They were afraid, probably, that Mr. Angus Morrison would desert them, or perhaps Mr. Tom Ferguson might have kicked up his heels, so they stood by, and suffered the enterprise to sink into irretrievable difficulties. They did take a step in the right direction by introducing a bill empowering them to foreclose their mortgage on the road, but Mr. Cumberland tells us that they were frightened into withdrawing it! Mr. Angus Morrison threatened to go over to George Brown rather than suffer such a thing to be done, and what could the ministry say after that? The defection of an Upper Canadian would have been ruin, and they submitted, as a matter of course. What mattered it that half a million of public money was at stake? Did not their salaries also depend upon it, and how could they hesitate? The blessings which flow from Sir Edmund Head's administration of public affairs are truly incalculable! What a loss he will be when he goes!

Mr. Cumberland, and the Board of Trade, and the City Council, are, we presume, going in a body to the Government to get something done. It is said, in fact, that Galt is to do something, but what that something is nobody can guess, and it is certain that Galt will have as much trouble in managing the Government supporters as Mr. Cayley had. The ministry are even less able now than they were last session to take up a difficult question, and settle it in a complete and satirfactory manner.

THE NORTHERN RAILWAY. — Deputations from the town council of Barrie, Bradford and Collingwood arrived in Toronto yesterday, and put themselves in communication with the directors of the Northern Railway, with a view to the adoption of measures for keeping open the road during this winter. The order of the Inspector of Railways has produced quite a consternation among the people in the north, who have called public meetings in most of the towns along the line of to take the matter into serious consideration. Trains will be run to-day for the last time under the present arrangements.—*Globe* of 21st.

A GRIST MILL BURNED IN KING.— We are informed by Mr. Joseph Wood, of the township of King, that Mr. Stokes' Grist Mill on lot 3 seventh con. of that township, has been burned to the ground. It was observed to be on fire on Thursday morning, and the fire spread with such rapidity that it was impossible to save any part of the property, except the waterwheel, which was preserved by the water being turned upon it. There was as much as 1,500 or 2,000 bushels of wheat in the mill at the time, some of it belonging to Mr. Stokes, and the rest to farmers in the vicinity. Last year some £300 worth of repairs had been put upon it. The loss is estimated at £5,000, none of which is insured, the insurance having expired three months since. Much sympathy is felt with Mr. Stokes in his calamity. The hands employed in the mill had left it the previous evening about five o'clock, and, as there had been no fire in the stoves on account of the mildness of the weather, strong suspicions are entertained that the fire was the work of an incendiary.

Nearly four hundred men received their discharge from the Brooklyn Navy Yard on Wednesday.

GREAT DOG FIGHT.—The "Fancy" had a great time of it on Monday last. Emulous, doubtless, of the notoriety acquired by Morrisey and the Benicia Boy, the "Fancy" of Hamilton and Toronto determined on a great fight, but on this occasion it was wisely resolvent that the animals to mangle and worry each other should be only bull-dogs. A Mr. John Martin, of Hamilton, who keeps a tavern and a bull-dog named Boney, and a Mr. somebody else of Toronto,—the proprietor of a bull-dog named "Crib"—entered into a solemn compact to make both dogs fight until one should be declared the winner. On this match the owners of the respective dogs staked $100 a side. The place selected for the fight was in the vicinity of Vine's tavern, on the Don and Danforth Road. Here a large pit was built specially for the occasion, and some three hundred persons assembled on Monday last. Boney and crib were led into the pit muzzled, and wearing heavy blankets. In addition to the dogs, the pit was occupied by their respective owners, two backers, and a time keeper. The muzzles and blankets having been carefully removed, Boney and Crib rushed at each other fiercely, and a series of the most sanguinary bitings, tossings and yelpings took place for fifteen minutes, when according to agreement both dogs, were separated, and their muzzles sponged by the seconds. At the close of this round heavy bets were offered against Crib, with some acceptances. Time having been declared up, Crib and Boney again closed, raising the excitement of the beholders to the highest pitch. "Shake him, Crib!" and "Finish him, Boney!" resoundedon all sides, and, according to the most authentic accounts it was only with the greatest difficulty a few of the spectators could be prevented from shaking and finishing one another. At length after another quarter of an hour Crib was so completely finished that he hadn't a leg to stand on—and Boney was declared the winner, by which slight circumstance Borey's master pockets $100, in addition to his stakes.—*Toronto Patriot.*

ROBBERY.

On Sunday last the house of a farmer living some ten miles North of the City, on Yonge Street, was robbed while he was attending Divine service. For some time past a boy named Tom, who represented that he had an uncle on the Great Western Railway, had been engaged as a servant; and on Sunday last while the family was out, this Tom broke open the press and stole therefrom a gold watch and £5 in money, with which he decamped. A NOBLE ACT.—A son of a Mr. Smith, of Wellington, while skating on West Lake, a few days since, fell through the ice. The alarm was given and people hastened to the place, but did not succeed in raising the body of the lad. Some time had elapsed, when a blacksmith in the village, familiarly known as Sam Hyatt, learned the cause and hastened to the spot, and without hesitation plunged through the hole into the water, and brought the body to the surface and threw it out upon the ice. He speedily followed and took the boy home. He there set to work manipulating the body until life was restored, and the mourning of the friends was turned into joy. The water at this place was some eight feet deep, and the hole in the ice quite small, and but for coolness and courage the hero might have shared the fate of the boy, and both been lost.—*Hamilton Times.*

We entreat you, as we desire to improve the condition of our race, to procure Dr. Morse's Almanac and read how diseases are cured in accordance with NATURE'S laws with innocent Roots and Plants.

TO ADVERTISERS!

Great Reduction of Advertising Rates!

Taking into consideration the hard times, and being determined to advance the prosperity of the community in which we live; and believing as we certainly do, that a Village is judged by parties at a distance by the Advertisements that appear in the columns of its Newspaper, and being very desirous of offering every inducement in our power to Merchants and others to Advertise, we have determined to Reduce our Advertising rates to as low a Fgure as we can possibly afford.—Our great object is, to encourage liberal advertising, as this branch of Business is the main stay to all Printing Establishments. Our readers will at once perceive that it is utterly impossible to advertise at lower rates than we give below If we did, we should not be able to carry on the paper; for no one (not even printers) can be expected to work for nothing. However, we hope that all those who desire to encourage a Village Newspaper will advertise liberally, and then while we shall be benefited, they themselves will be even more so by an increase of business,—the invariable result o advertising. The following are our reduced rates:—

¼ column,	¼ a year,	25	per cent discount.
¼ "	½ "	30	"
¼ "	1 "	35	"
½ "	¾ "	30	"
½ "	½ "	35	"
½ "	1 "	40	"
1 "	½ "	35	"
1 "	½ "	40	"
1 "	1 "	45	"

All advertisements to be measured by a scale of 200 solid Brevier lines to a column.—Four pence a line will be charged for the first insertion, and one penny a line for each subsequent insertion.

Advertisers to have the privilege of changing their advertisement four times a year.

Advertisements under a quarter of a column, continued for three months, will be subject to 20 per cent; for six months, 25 per cent; and for 12 months, 30 per cent discount.

DR. AMOS & SON, Corner of Main and Quay Streets, Buffalo, New York, are the only Physicians in the State who are members of the Royal College of Surgeons, London. May be consulted from 8 o'clock in the morning until 9 o'clock at night, on every state and symptom of disease.

The treatment they adopt is the result of upwards of 30 years' extensive and successful practice in London. The most inveterate symptoms of Disease eradicated in eight or nine days, and cases of a slight nature in two or three days at a very moderate expense.—The cure effected without confinement or hindrance from business.

Young Men—Take Particular Notice.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed by them in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

A Most Scientific Invention.

An instrument for the cure of Genital Debility, or more properly known as Seminal Weakness, Nervous Debility, &c., which are permanently cured in from 15 to 20 days by the use of this instrument, when used conjointly with medicines.

New Remedies and Quick Cures.

DR AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia and New York. It has been declared the only useful instrument ever yet invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth.

Dr. Amos & Son, in order to satisfy the most skeptical as to the merits of these instruments, pledge themselves, that in any instance where they may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument in good order.

Persons wishing the above useful instrument will observe, that the price, with the accompanying directions, securely packed and sent by mail or express, is ten dollars.

Beware of Imposition.

Beware of empiries and itinerant self-styled professors, who ATTEMPT cures, but never succeed

Dr Amos & Son have for a long series of years been engaged in an extensive practice in the treatment of these delicate complaints, and are the only legally qualified Physicians who now advertise to cure certain complaints, or from whom genuine European remedies can be obtained.

PERSONS IN ANY PART OF THE WORLD may be successfully treated by forwarding a correct detail of their cases, with a remittance for Medicines, &c., which will be returned with the utmost dispatch, and secure from observation.
