GOOD NEWS FROM FRASER RIVER.

Correspondence of the New York Times.

VICTORIA, Monday, Nov. 15, 1858.

The oft-quoted maxim that "When matters are at the worst they willl mend," has been singularly verified in this region by recent experience. A month ago the crowds of miners who rushed hither on their way to California, driven from Fraser's River by the discovery that *all* the claims on that stream did not become richer as the water receded, sent our thermometer of popular feeling down to zero, and all was despondency. Even the few who based hopes of a 're-action' in the Spring on the fact that many of those returning had been comparatively successful, and that nearly all assigned as a reason for leaving dread of apprehended rigorous Winter weather, were damped in their ardor by the general depression. It was, therefore, matter of suprise to all when a steamer arrived from Fort Hope, some three weeks since, with large orders for goods, an event which has been followed up by similar ones to the present time.

Simultaneously with the improved business prospects comes encouraging accounts from the diggings. It now appears that all the banks and benches of the river between Forts Hope and Yale will pay well in sluice-mining, and it is a matter of extreme surprise that so many Californians should have idled away months last summer without digging deep enough to discover this fact. New ditches are being dug, shafts sunk, and the town of Fort Yalo itself is staked off into mining claims.

From the Upper Fraser accounts are also encouraging. The roadcutting party has been settled with by the Government on terms much more liberal than were called for by the original agreement, and most of them have gone to work in the vicinity of Bridge River, where they intend to stop through the Winter. As that vicinity is comparatively open country a rigorous Winter is not apprehended, and those who should know assert that the Lillovet trail will be passable all through the Winter season. When it is taken into account that those on the river below its junction with Thompson are paying at the rate of a dollar per pound for provisions, and that higher up, the miners who receive their provisions by the Lillovet route, will be compelled to pay sixty to seventy cents per pound for provisions all through the Winter, it cannot but be conceded that the diggings which will support men under such circumstances, and afford them sufficient extra inducement to continue at work, must be good.

But these diggings are bank diggings, and although affording more regular and extended operations than the river bars, they do not come up to the extravagant accounts which reached California in May last, for this reason. In January February and March the river is at the lowest stage, and the bed rocks can be reached—a point which none of the new comers have attained. Last winter many Oregonians spent months on the Fraser, packing through their provisions from the Dalles. Most of these returned to Oregon in June, and did not intend to revisit the Fraser till the season for good river diggiag should return again. Thus it will be seen that the diggings upon which the original accounts were based have not been worked by any of the new comers who reached Frazers River after the first of last June. Recent discoveries, though less extravaganf than the first accounts in yields to individuals, are much more promising for the country, as they show an extent of the gold fields uot hitherto suspected, and establish an analogy beiween British Columbia and California in every respect except the quartz lodges, few of which have as yet been found in the former region, though persons who have been through tie country north of the Frazer, and traversed the rivers emptying into the Gulf of Georgia in that vicinity, assert that region to be rich in auriferous rock and coarse gold. This is a point which next year, when the Hudson Bay Co. has no longer the power to prevent traders from following and supplying prospecting miners, will be decided.

I send you herewith copies of the proclamation shortly to be issued in British Columbia, providing for the government of that region. The indemnification document is a curious paper, and worthy the attention of persons interested in noting the difference between republican and monarchcial institutions.

I shou'd have mentioned above that our market is now bare of many articles in great demand, and large quantities of which were re-shipped to San Francisco less than a month ago. To show the character of the panic that prevailed here I may mention that large quantities of bacon, worth 36 cents per pound here now, were sent to Columbia River at that time—action equivalent to the proverbial absurdity of sending coals to Newcastle. This scarcity would soon be followed by a glut were it not for the fact that at this season the coast is very dangerous for small sailing vessels, and orders must be supplied from San Francisco by steamers; which mode, being expensive as a matter of freight, and limited in carrying capacity, will not be likely to accumulate over-stocks before Spring.

After several weeks of 'busy preparation' the American residents of this town gave Mr. John Nugent a dinner a few nights since.

FREEMASONRY.

We copy the following from the London *Weekly Times* of Dec. 5th;—

"FREEMASONRY.—At the meeting of the Grand Lodge on Wednesday night the Earl of Zetland was again placed in nomination for the office of Grand Master for the ensuing year. On the motion of the M. W. Grand Master the independence of the Grand Lodge of Canada was acknowledged, subject to matters of detail to be hereafter settled."

TWO MEN COOKED AND EATEN—THE CANNIBALS MASSACRED.

A correspondent from San Francisco, writing Dec. 6th, says:—

"By the overland mail I forward the particulars of the murder of two Americans in the Feejee Islands, and the measures which had been taken to punish the cannibals. Lieut. J. Hogan Brown, of the United States sloop of war Vandalia, which arrived here on Friday last, gives the sequel of the matter. The information is as follows:

"While the Vandalia was at Ovolan, in the Feejee Islands, information was communicated to Commander Sinclair by the Consul at Levuka, that the inhabitants at Lomati, on the island of Ways---a tribe of ferocious cannibals - had surprised a small vessel, and murdered cooked and eaten, the crew. Thereupon, an expedition, consisting of sixty men, was fitted out, placed in charge of Lieut. Caldwell, with Lieut. Ramsay of the marines, Assistant Surgeon Trist, and master's mate Bartlett, and sent against them. The natives refusing to give up the murderers, and taken advantage of their strong position (a town situated on the top of a high mountain, 1,600 feet above the level of the sea,) to defy the party sent against them, a landing was effected at daylight on the morning after reaching the island; and, after a most fatiguing march of several hours, over declivities, precipices, rocks, and through ravines, the expedition arrived opposite the town. A long halt was made to refresh the men, who were almost prostrated by their exertions. After resting, the town was assaulted and carried by a flank movement, the natives fleeing to their rocks and fastnesses; the town was nearly destroyed, 115 houses having been fired and consumed. On the return of the expedition they were attacked in the most furious manner, in one of the ravines, by 300 warriors, who were repulsed with a heavy loss, after a severe action of about half an hour, the natives losing nearly 50 in killed and wounded, including two of their principal chiefs. The Americans had six wounded, one very severely. The seamen and marines behaved in the most gallant manner.

"The tribe has been taught a severe lesson, and one that will not be lost on the tribes in their vicinity. The Americans murdered and eaten were Louis Brower, a Prussian, naturalized, and Henry Homer, of New York."

TORONTO WINTER ASSIZES.

The Assizes for the United Counties of York and Peel will be opened this forenoon by the Hon. Mr. Justice McLean. Hon. J. H. Cameron will act as Crown Counsel in conducting the criminal business. The following persons will be tried for the crimes opposite their names during the Assizes:—Wm. Chisholm, horse stealing; John O'Leary, murder; James Henderson, larceny; G Beckwith and Nevins Jones, horse stealing; Joseph Ward, sen., receiving stolen goods; James Fleming, murder; H. Richards, larceny; F. Fitzgerald, larceny (two indictments); Robt. Gregg, W. Ross, A. Doig and J. Hellam, rape and housebreaking; and George Wilson, larceny. It is stated that there are a large number of civil causes on the docket.

RAILROAD ACCIDENT.

Twenty to thirty lives lost.

AUGUSTA, Ga., Friday, Dec. 31.

This morning, the train from Macon ran off the track, two miles from Columbus, and a fire-man and wood passer were killed, and G. W. Smith, engineer had his jaw broken. None of the passengers were injured.

The morning train to Macon ran off the track at Adam's Mills, in consequence of the culvert being washed out. J. H. Miller, engineer, the fireman and wood passer, and conductor Snell were killed, and several of the passengers were drowned, but their names are as yet unknown. About a dozen were saved. It is supposed that about thirty were aboard.

EIGHT CHILDREN AT A BIRTH.—About five months since the wife of Mr. Jacob Abbott, living ten miles west of Golconda, Pope County, presented her husband with eight pledges of affection at one birth! Four of these children survived until some six weeks since, when two of them sickened and died. The remaining two are still living and thriving finely. The whole eight were very small specimens of humanity when ushered into the world, as might have been expected. This statement is literally true; it is vouched for by numbers of respectable witnesses who saw the four living children. Egypt is a very prolific country—a little too much so, sometimes.—*Cairo Gazette.*

Special Notices.

TO FAHERS AND MOTHERS.

You know how important it is for your children that you should keep good health. How frequently do we see feeble parents dressed in mourning on account of the death of their beloved children. What a pity it is, when, by proper care and remedies, all these trials and troubles can be avoided. When health can be restored to the parent and life and happiness to the child, Restore the health of the mother and you obviate the necessity of Parcgoric, Godfrey's Cordial and other injurious narcotics for crying children. We entreat you, as we desire to improve the condition of our race, to procure Dr. Morse's Almanac and read how diseases are cured in accordance with NATURE'S laws with innocent Roots and Plants.

PREGNANCY.

During this critical period Morse's Indian Root Pills will be required, because they cleanse the body from those morbid humors, and thoroughly drive away all pains, and give ease and comfort to the mother. From one to three of these Pills, taken two or three times a week during pregnancy, will cause the mother a safe and easy delivery, and will be sure to give a stout and healthy constitution to the child.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

THE Injudicious use of Mercury often occasions affections of the throat, of the bones of the nose, and malignant sores. Dr. Moffat's Life Pills and Phœnix Bitters are signally successful in eradicating all the effects of mercury from the system. They aid nature in casting from the body all poisonous matters, and by thus purifying the vital fluids, they restore the constitution to sound health. For sale by W. B. MOFFAT, proprietor, 335 Broadway, New York, and his Agents.

TO ADVERTISERS!

Great Reduction of Advertising Rates!

Taking into consideration the hard times, and being determined to advance the prosperity of the community in which we live; and believing as we certainly do, that a Village is judged by parties at a distance by the Advertisements that appear in the columns of its Newspaper, and being very desirous of offering every inducement in our power to Merchants and others to Advertise, we have determined to Reduce our Advertising rates to as low a Fgure as we can possibly afford.—Our great object is, to encourage liberal advertising, as this branch of Business is the main stay to all Printing Establishments. Our readers will at once perceive that it is utterly impossible to advertise at lower rates than we give below. If we did, we should not be able to carry on the paper: for no one (not even printers) can be expected to work for nothing. However, we hope that all those who desire to encourage a Village Newspaper will advertise liberally, and then while we shall be benefited, hey themselves will be even more so by an ncrease of business.—the invariable result of advertising. The following are our reduced rates:—

¼ column,	½ a year,	$5	per cent discount.
¼ "	½ "	30	"
¼ "	1 "	35	"
½ "	½ "	30	"
½ "	½ "	35	"
½ "	1 "	40	"
1 "	½ "	35	"
1 "	½ "	40	"
1 "	1 "	45	"

All advertisements to be measured by a scale of 200 solid Brevier lines to a column.—Four pence a line will be charged for the first insertion, and one penny a line for each subsequent insertion.

Advertisers to have the privilege of changing their advertisement four times a year.

Advertisements under a quarter of a column, continued for three months, will be subject to 20 per cent; for six months, 25 per cent; and for 12 months, 30 per cent discount.

DR. AMOS & SON, Corner of Main and Quay Streets, Buffalo, New York, are the only Physicians in the State who are members of the Royal College of Surgeons, London. May be consulted from 8 o'clock in the morning until 9 o'clock at night, on every state and symptom of disease.

The treatment they adopt is the result of upwards of 30 years' extensive and successful practice in London. The most inveterate symptoms of Disease eradicated in eight or nine days, and cases of a slight nature in two or three days at a very moderate expense.—The cure effected without confinement or hindrance from business.

Young Men—Take Particular Notice.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed by them in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

A Most Scientific Invention.

An instrument for the cure of Genital Debility, or more properly known as Seminal Weakness, Nervous Debility, &c., which are permanently cured in from 15 to 20 days by the use of this instrument, when used conjointly with medicines.

New Remedies and Quick Cures.

DR AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia and New York. It has been declared the only useful instrument ever yet invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth.

Dr. Amos & Son, in order to satisfy the most skeptical as to the merits of these instruments, pledge themselves, that in any instance where they may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument in good order.

Persons wishing the above useful instrument will observe, that the price, with the accompanying directions, securely packed and sent by mail or express, is ten dollars.

Beware of Imposition.

Beware of empiries and itinerant self-styled professors, who ATTEMPT cures, but never succeed

Dr. Amos & Son have for a long series of years been engaged in an extensive practice in the treatment of these delicate complaints, and are the only legally qualified Physicians who now advertise to cure certain complaints, or from whom genuine European remedies can be obtained.

PERSONS IN ANY PART OF THE WORLD may be successfully treated by forwarding a correct detail of their cases, with a remittance for Medicines, &c., which will be returned with the utmost dispatch, and secure from observation.

The Scottish American Journal

DEVOTED TO THE

Interests of Scotchmen in America,

AND TO THE DISSEMINATION OF

SCOTTISH LITERATURE AND ART!

CONSIDERING the multiplicity of newspapers in America, it has to many been a matter of surprise that the numerous body of Scottish residents should have been so long unrepresented. To supply this desideratum, No. 1, of the SCOTTISH AMERICAN JOURNAL was published on Saturday, August 8, 1857. and is now continued weekly.

The primary object of the JOURNAL is to furnish its readers regularly with the news of their native country. It presents a weekly record of all events of interest occurring in Scotland, and its subscribers are in this way as fully informed of what is transpiring at home as if they were in regular receipt of an old-country newspaper. Scottish questions will be discussed with intelligence and impartiality in the editorial columns, and the sentiments of the leading parties on these subjects will be fairly represented and commented upon.

In the literary and miscellaneous department of the paper, while merit and talent will be appreciated from whatever country they emanate, the Scottish element will preponderate. Tales, sketches, and poetry, illustrative of the Scottish character, and of a nature fitted to call forth the sympathies of Scotchmen both at home and abroad, will occupy a conspicuous place. In this department, the co-operation of various distinguished authors, possessing unrivalled facilities for the task, has been secured.

In politics, the JOURNAL will occupy a thoroughly independent position, alike free from party bias and national prejudice. In order to it terest its readers wherever situated, it will take a broad view of topics of this class, holding those of a merely local nature, except in so far as they may present points of importance to the general public Questions involving the interests of British residents in the United States and in the British Provinces, will be specially considered, and it is believed that the information and news of the JOURNAL on this important class of subjects will be such as shall command attention.

The SCOTTISH AMERICAN JOURNAL, will in every respect be conducted in an efficient and business like manner, with every requisite guarantee for its permanence. The proprietors, who are responsible parties, resident in New York and elsewhere, therefore look with confidence for the support of their numerous countrymen in all parts of America, and they will be glad to communicate with respectable parties at a distance who may be disposed to co-operate with them for the establishment of the paper in their respective localities.

A publication established with these objects must of course look for support mainly from those connected by birth or descent with the country whose current history it chronicles; but as the broad basis of this journal necessitates, in addition, the treatment of all important questions affecting American interests, and as its literature will be cosmopolitan, it is hoped that even to the general reader its columns will not appear unentertaining or profitless.

ALMOST EVERYBODY is ordering the *PLOUGH, LOOM* and *ANVIL.* That the rest may be as wise, and possess themselves of what we are bound—at any cost to ourselves—to make the Leading Industrial Journal of the times—the best for the Farmer, the Mechanic, and the Family Circle—we make the following unprecedented liberal offer:—

Our Eleventh Volume will commence with January, 1858—will run to January, 1859—and contain 768 large octavo pages, on fine paper, with new type. It will be issued within the first week of each month, in numbers of 64 pages each, done up in the best magazine style.

To all who will forward the money for this volume, as single subscribers or in clubs, we will send gratuitiously, the numbers of the current volume, from the time of their forwarding, and one month previous, thus giving in two, three, or four numbers, according to the time, to all who subscribe before January.

TERMS:—$2 a year in advance; $1 50 to clubs of four and upwards: $1 for six months. Advertising, ten cents a line. For giving publicity to improved stock, agricultural implements, mechanical improvements, and like matters of general interest, there is no other medium good at the price.

Liberal terms to persons disposed to act as agents for this work. Let us hear from them

PHONOGRAPHY

OR

WRITING BY SOUND!

PITMAN'S Manual of Phonography is a work of about 100 pages, every other leaf of which is printed from stone engravings, giving writing exercises in the art which the book is designed to teach. By the use of this Manual, any school boy or girl, of 5 or 6 years and upwards, may learn, in a surprisingly shoest space of time, to read and write Phonography or Phonetic Short-hand, and a few months of daily practice is all that is required to enable a child of ordinary intelligence to write 100 or more words per minute! This rate of speed is sufficient to take down ordinary sermons, speeches, and conversation as fast as spoken.

The "Manual of Phonography," 75 cents, and the "Phonograpic Copy-book," 25 cents, are sent to any address, by mail, post-paid, on receipt of the price, ONE DOLLAR.
