News unimportant.

GREAT BRITAIN. In the House of Lords on the 17th fice. ultimo, Lord Malmesbury promised shortly to produce the correspondence with Austria, in regard to the telegraph

between Russia and Alexanderia. In the House of Commons on the same evening, the debate on the resolution censuring the Government for publication of the Indian despatch, was resumed. The speakers in favour of the resolution, included Sir C. Hood, Mr. Byng, Sir C Lewis and others, and those against it Mr. Roebuck, Sir R. Peel, Mr. Whiteside, &c. The Government supporters denounced the effort as a mere party scheme to drive out the present Ministry. On the 18th ult., proceedings in the debate upon the vote of censure was continued without eliciting anything of importance being confined to mere asking means of mauring the Navy. The House
