

Forty.  
MY NANNIE, O  
BY THE AUTHOR OF 'HAWK AND BRIDE—A RAILWAY CAROL.'  
Within this glen where Luger flows,  
Scarcely seen or heard by any, O,  
Full forth summer's sun's face blown  
Out o'er me and my Nannie, O.  
What tho' we canna boast o' gear,  
We've lads and lasses many, O;  
And tho' my heart they're always dear,  
And bid me mair to Nannie, O.  
My Nannie still is dear to me,  
She's aye sae good and canny, O;  
And tho' I'm a henny face I see,  
There's nae to me like Nannie, O.  
And tho' her locks are silver'd o'er,  
She's blythe and gay as ay, O;  
The laverock in the doxy morn,  
Nae blither is than Nannie, O.  
Wi' evident care I trudge along,  
'Mang cares and crosses many, O;  
And when my daily toil is done,  
I'm welcome aye to Nannie, O.  
My frugal meal I eat wi' thanks;  
I'm never covet by any, O;  
And had I a' the Indies' wealth,  
I'd part wi' it for Nannie, O.  
Our lads may strut among his flocks,  
And braided riggs sae bonnie, O,  
But I've a heart as blythe and gay,  
Wi' thought to cheer't her Nannie, O.  
Tho' down life's vale we trudge along,  
And hand in hand right canny, O,  
In hopes a better world than this,  
Will shelter us and Nannie, O.

Miscellaneous.  
Reputation is often got without merit,  
and lost without crime.  
The most popular belle, always and  
every where, is the dummer bell.  
An Irish paper announces, that a Mr.  
Kenny, returning to town, fell down and  
broke his neck, but happily received no  
further damage.  
The fashionable dressed young lady  
who fell down the other day broke no  
bones but a wale's.  
Why should physicians have a greater  
horror of the sea than anybody else?  
Because they are more likely to see sick-  
ness.  
NEVER look to an exclusively political  
paper for good reading for your family.  
You might as well try to get wool by  
shearing a hydraulic ram.  
"MOTHER, have I got any children?"  
asked an urchin of eight summers. "Why,  
no; what put that into your head?"—  
"Because I read in the Bible to-day about  
children's children."

Take all sorrow out of life, and you  
take all richness, and depth, and tenderness.  
Sorrow is the furnace that melts selfish  
hearts together into love.  
If a man be gracious to a stranger it  
shows that he is a citizen of this world,  
and that his heart is no island cut off from  
other lands, but a part of the continent  
that joins them.  
EXPENSIVE.—Rice straw or Leghorn  
hats without any trimming save their own  
pearl bonnets, are the style with Parisian  
fashion. This summer, writes a French felle  
who likes to know. They cost a great  
deal—like some Panamas—as high as  
\$200 a piece—the hats, of course, not the  
ladies.

A GENUINE IRISH BULL.—Immediately  
after the trial for murder at the last  
circuit court, as one of the constabulary  
was coming down the stairs leading from  
the Court House, he was accosted by an  
Irishman, who anxiously enquired of him  
what sentence had been pronounced  
against the prisoner Ross? "Banishment  
for life," replied the constable. "Well,  
troth, by my soul," ejaculated Pat, "he'll  
never live to see the end of it."

ASSISTING A PARSON.—A traveler passing  
a country church which was under re-  
pair, observed to one of the workmen, that  
he thought it would be an expensive job.  
"It will sic," replied the workman, "but in  
carrying it out we shall accomplish what  
the parish clergyman has endeavored to  
do for this last thirty years in vain."  
"What is that?" asked the traveler. "Why,  
bring all the rate-payers to repentance."

Pray, tell me, my dear, what is the  
cause of those tears?" "Oh! such dis-  
grace! I have opened one of your letters,  
supposing it to be addressed to myself.  
Certainly it looked more like Mrs. than Mr.  
Is that all? What man can be so in a  
wife opening her husband's letters?" "But  
the contents! Such a disgrace!" "What!  
has any one dared to write me a letter  
unit for my wife to read?" "Oh, no. It is  
couched in the most classic language.  
But the disgrace?" The husband eagerly  
caught up the letter and commenced reading  
the epistle that had been the means of  
nearly breaking his wife's heart. Reader,  
you could not guess the cause in an age.  
It was no other than a bill from the printer  
for a three year subscription!

WARNING TO SIBBENS.—A young  
gentleman of a musical turn of mind, one  
evening serenaded his Dulcinea, aided and  
abetted therein by a party of deluded  
friends. Next day he visited the serenaded  
fair one. "Her eyes," he says, "betrayed  
the fact that she passed a sleepless night,  
we tendered our hypocritical sympathy."  
"Oh, Mr.—," yawned the lady, "there  
was such a noise in the street last night!"  
Some policemen were taking an intoxicated  
colored man to the station-house, and he  
screamed and swore so dreadfully, just as  
they came in front of our door, the whole  
neighborhood was aroused. The police-  
men seemed to expostulate with him in vain  
and it must have been an hour before they  
could get him. Just then the gent remem-  
bered that he had a sick friend near  
by, and went to see him at once. He says  
that he has not sung a note since.

**The Scottish American Journal**  
DEVOTED TO THE  
Interests of Scotchmen in America,  
AND TO THE PROMOTION OF  
SCOTTISH LITERATURE AND ART!  
(CONSIDERING the multiplicity of news-  
papers in America, it has to be so long a  
time before any article of interest to the  
Scottish emigrant will appear in the editorial  
columns, and the sentiments of the leading  
parties on these subjects will be fairly repre-  
sented and commented upon.  
In the literary and miscellaneous department  
of the paper, while merit and talent will be  
appreciated from whatever country they emanate,  
the Scottish emigrant will find in the editorial  
columns, and in the notices of the Scotch  
character, and of a nature fitted to call forth  
the sympathies of Scotchmen both at home and  
abroad, will occupy a conspicuous place.  
In this department, the co-operation of various  
distinguished authors, possessing unrivalled  
facilities for the task, has been secured.  
In politics, the JOURNAL will occupy a  
thoroughly independent position, alike free  
from party bias and national prejudice. In  
order to be in a position to receive, situated, it  
will take a broad view of topics of the day,  
avoiding those of a merely local nature, except  
in so far as they may present points of impor-  
tance to the general public. Questions involv-  
ing the interests of British residents in the  
United States and in the British Provinces, will  
be specially considered, and it is believed that  
the information and news of the Journals on  
this important class of subjects will be such as  
shall command attention.  
The SCOTTISH AMERICAN JOURNAL, in every  
respect be conducted in an efficient and  
business like manner, with every requisite  
guarantee for its permanency. The proprietors,  
who are respectable parties, resident in New  
York and elsewhere, therefore look with con-  
fidence for the support of their numerous coun-  
trymen in all parts of America, and they will  
be glad to communicate with respectable par-  
ties at a distance who may be disposed to co-  
operate in the furtherance of the object of the  
paper in their respective localities.  
A publication established with these objects  
must of course look for support mainly from  
those connected by birth or descent with the  
country whose current history it chronicles;  
but as the business of the Journal is a com-  
mercial one, in addition, the treatment of all im-  
portant questions affecting American interests, and  
as its literature will be comprehensive, it is hoped  
that even to the general reader its columns will  
not appear uninteresting or profitless.)

**DR. MORSE'S  
Indian Root Pills.**  
DR. MORSE, the inventor of Morse's Indian  
Root Pills, has spent the greater portion of  
his life in travelling, having visited Europe,  
Asia, and Africa, as well as North America,  
has spent three years among the Indians of our  
Western country—and it was in this way that  
the Indian Root Pills were first discovered. Dr.  
Morse was the first man to establish the fact  
that all diseases arise from IMPURITY OF  
THE BLOOD—arise from its strength, health and  
its depend upon this vital fluid.  
When the various passages become clogged,  
and do not act in perfect harmony with the  
different functions of the body, the blood loses its  
nature, becomes thick, corrupted and diseased;  
thus causing all pains, sickness and distress of  
every kind. It presents a wretched, filthy  
fluid, and is deprived of all life, and nature is not  
assisted in throwing off this impure blood,  
the blood will become clogged and cease to act,  
and thus our life will be forever blown out.  
How important then that we should know  
the various signs of the body, and open  
and clear the passages, so that we have a free  
passage to put a medicine in your veins, namely,  
Morse's Indian Root Pills, manufactured from  
plants and roots which grow around the mon-  
archical cliffs in Nature's Garden, for the health  
and recovery of diseased man. One of the  
roots from which these Pills are made is a  
Sidaireia, which opens the pores of the skin,  
and assists Nature in throwing out the four  
parts of the corruption within. The second is  
a plant which is an Experiment, that opens and  
clears the passage to the lungs by opening  
splitting. The third is a Diuretic, which gives  
ease and strength to the kidneys; the fourth,  
encouraging, they draw large amounts of im-  
purity from the blood, which is then thrown  
out naturally by the urinary or water passages,  
and which could not have been discharged in  
any other way. The fourth is a Cathartic, and  
accompanies all other properties of the Pills,  
which engaged in purging the blood; the  
corrupt particles of impurity which cannot pass  
by other outlets, are thus taken up by  
Dr. Morse's Indian Root Pills not only enter the  
stomach, but become united with the blood, for  
they find their way to every part, and our system  
is renewed and the system from all impurity,  
and the life of the body, which is the blood,  
becomes perfectly healthy; consequently all  
sickness and pain is driven from the system,  
for they cannot remain when the body becomes  
so pure and clear.  
The reason why people are so distressed  
when sick, and why so many die, is because  
they do not get a medicine which will pass to  
the afflicted parts, and which will open the  
natural passages for the disease to be cast out;  
hence, a large quantity of food and other matter  
is taken in, and the stomach and intestines are  
literally overflowing with the corrupted mass;  
this undergoing disagreeable fermentation,  
constantly mixing with the blood, which throws  
the corrupted matter through every vein and  
artery, until life is taken from the body by  
disease. Dr. Morse's PILLS have added to the  
innumerable victories upon victory, by restoring  
millions of the sick to blooming health and hap-  
piness. Yes, thousands who have been racked  
or tormented with sickness, pain and anguish,  
and whose feeble frames have been scorched  
by the burning elements of fever, and who  
have been brought, as it were, within a step  
of the silent grave, now stand ready to testify  
that they would have been numbered with the  
dead, had it not been for this great and wonderful  
medicine, Morse's Indian Root Pills. Athlete  
or two doses had been taken, they were as  
fresh, and absolutely supported, as when  
they first engaged in the contest. Not only do they give  
immediate ease and strength, and take away all  
weakness, pain and anguish, but they act  
upon the foundation of the disease, which  
is the blood. Therefore, it will be shown,  
especially by those who use these Pills, that  
they will so cleanse and purify, that disease—  
that deadly enemy—will take its flight, and the  
flush of youth and beauty will again return, and  
the prospect of a long and happy life will cheer  
and brighten your days.

No Mercury Used.  
MR. AMOS & SON, Corner of Main and  
Queen Streets, Buffalo, New York, are the  
only Physicians in the Buffalo who are mem-  
bers of the Royal College of Physicians, London.  
May be consulted from 9 o'clock in the morn-  
ing until 9 o'clock at night, on every day and  
Sabbath of the year.  
The treatment they adopt is the result of ex-  
perience, and is entirely new, and is entirely  
peculiar in London. The most inveterate  
sympoms of Disease eradicated in eight or  
ten days, and cases of a slight nature in two  
or three days, at a very moderate expense.—  
The cure effected without confinement or dan-  
gers from blood-letting.  
Young Men—Take Particular  
Notice.  
There is an evil which sometimes indulged  
in by boys, or students, even a growing up with  
them to manhood, and which, if not reformed  
in time, will cause and can beget serious  
obstacles to unobstructed happiness, and give  
rise to a series of protracted, tedious, and  
detracting affections. Few of those who give  
way to this pernicious practice are aware of  
the consequences, and they find the nervous  
system shattered, and the organs of the  
senses, and the organs of the mind, and the  
whole system, are in a state of prostration,  
and a valuable Family Newspaper.  
A Most Scientific Invention.  
An instrument of the name of Great Dis-  
turbance, or Nervous Debility, &c., which  
is permanently cured in from 15 to 20 days by  
the use of this instrument, when used conjointly  
with medicines.  
New Remedies and Quick  
Cures.  
Dr. AMOS & SON, in announcing  
that they have invented a most important  
instrument for the cure of the above disor-  
ders, has been subjected to a test by the most  
eminent physicians in London, Paris, Philadel-  
phia and New York. It has been declared the  
only useful instrument ever invented for the  
cure of Nervous Debility, or any disease of  
the genital organs, caused by the secret  
habits of youth.  
Dr. Amos & Son, in order to satisfy the  
most skeptical as to the merits of these in-  
struments, pledge themselves, that in any instance  
where they may have been used, after a  
fair trial, the money will be refunded by  
returning the instrument in good order.  
Persons wishing the above useful instrument  
will observe that the price, with the accom-  
panying directions, securely packed and sent  
by mail or express, is ten dollars.  
Beware of Imposition.  
Beware of cheap and inferior self-styled  
professionals, who attract cures, but never  
cure.  
Dr. Amos & Son have for a long series of  
years been engaged in an extensive practice in  
the treatment of those delicate complaints, and  
are the only legally qualified Physicians who  
now advertise to cure certain complaints, or  
from whom genuine European remedies can be  
obtained.  
Persons in every part of the world may  
be successfully treated by forwarding a correct  
detail of their cases, with a remittance for  
Medicines, &c., which will be returned with the  
utmost dispatch, and sent free on observation.
