NARRATIVES OF THE JESUIT FATHERS!

LAST year the French reading part of the Canadian people were edified and delighted by the publication of the original Narratives of the Jesuit Fathers; who were the pioneers of religion and its attendant civilization in Canada. This work, important as it is to the French Canadian, is not less so to the English-speaking part of the population of North America. All inhabitants of this great continent, especially all Canadians, should regard it as an honored piece on the shelves which bear the stirring narratives of the first English and Dutch adventurers.

It is fit, therefore, to make its revered authors speak with an English tongue. The French Government has made large and precious contributions of historical matter to our Provincial Library, both manuscript and printed, relating chiefly to Canada, its settlement and wars; the Government of the United States has been ever zealous in collecting documents relating to the acts and sufferings of their hardy and adventurous founders; and the encouragement which our own Government could afford in aid of enterprises of the same nature, has always been promptly and effectually granted.

The publication of authentic and interesting historical records has been favored and prompted by all enlightened governments and literary bodies; because they supply the best evidence of the truth of history, or the best materials for its composition. It is even better known that the chronicles and private memoirs of contemporaries are of higher value than the polished periods of Hume and Mezeray.

The Narratives now sought to be presented to the public are of great value to all classes. To the religiousist, who is a Roman Catholic, they afford precious evidence of the zeal of those servants of his Holy Religion who devoted themselves to its propagation among the heathen, and went forward through many a fiery trial, to find a way to the hearts of the idolaters. The ethnologist will find in them faithful descriptions of a race now much degenerated and rapidly approaching to extinction, written amongst them as they lived and moved, hunted and fought, married and died, received baptism or forcibly murdered the men who sought to bestow them. Ordinary readers, from the intelligent scholar to the untalented peasant, will peruse with interest an account of men who trod the soil on which they now move,—who were the lords of the forest and the rear, now smiling with the rich harvest or glittering with the vessels of commerce,—and will learn with some emotion that they live and sleep in security on the self-same spot which has been often drenched with the blood shed in warfare or massacre.

The publication of so voluminous a work will depend entirely upon the support received from the public. The first volume has been translated by one of the best translators in the Province; and it will be put to press as soon as a sufficient number of subscribers have been secured to defray the cost of translation and publishing.

The work will make 3 Volumes, Royal 8vo. of about 750 pages each, in Long Primer type. Subscription lists will be found at the Book-stores in Montreal, Toronto, Quebec, Kingston, Ottawa, Hamilton, London, &c. and at the Offices of the Publisher, in St. Nicholas Street, Montreal; also at Ste. Anne Street Quebec.

Price in paper covers per volume, \$2.74, or for the set \$8.25.

Price in half calf per volume, \$3.50 or for the set \$10.50.

JOHN LOVELL, Canada Directory Office, Montreal, Sept. 1859.

PHONOGRAPHY, OR, WRITING BY SOUND.

PHONOGRAPHY was invented by ISAAC PITMAN, of Bath, England, in the year 1837. It is the most simple, most natural, most rapid, and most easily-learned system of Writing which has ever been, or ever can be invented.

During the past fifteen years, hundreds of thousands of persons, in England and America, in both public and private life, have learned to write Phonography, and thousands of social and business letters annually pass through the post office.

Not in its great popularity to be wondered at.—The present system of writing is exceedingly cumbersome, and practically useless these days of progress and invention. Phonography is equally as legible, can be learned in one-twentieth the time, and can be written six times as fast! In other words, the labor of six days can be performed in one day, and the work of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours. An hour's daily practice for a few weeks will enable any person to write Phonography with certainty, and secure some degree of freedom. The same amount of practice continued for six months will enable a person to take reports of speeches, lectures, sermons, or conversation, and to read them with accuracy.

Dr. J. W. Stone, of Boston, says: "I deem Phonography an invaluable adjunct to education, and one which, when acquired in youth would not be parted with in manhood for thousands of dollars!"

The late Hon. THOS. H. BAXTER, upon being presented with a verbatim report of one of his masterly speeches, taken by a little boy only twelve years of age, said: "Had this art been known 40 years ago it would have saved me 20 years hard labor." The Hon. Senator spoke but a portion of the truth. What long hard requires six years to accomplish, Phonography will perform in one.

To Clergymen, Editors, Physicians, Lawyers, Secretaries, Conventurers, Law and Medical Students, Lecturers, Preachers, School Teachers, Merchants, School Boys and Girls, a knowledge of Phonography is of vast utility. In fact there is no profession or calling in which it is not useful, and no young man's education can be considered complete without it.

During the past nine months hundreds of persons in Canada, of every pursuit in life, have acquired the Art, from many of whom the subscriber has received neatly-written phonographic letters. The prospective delight with the attainment, and the extraordinary ease with which they have acquired it.

For the purpose of aiding in the dissemination so important a reform in his own country, the subscriber is now prepared to supply all who apply, with the Manual, or Phonograph, and the PHONOGRAPHIC COPY BOOK, sent by mail to any part of the Province, postage pre-paid, for the small sum of ONE DOLLAR. Anybody and everybody, who can learn anything, can learn Phonography from the MANUAL, without other assistance.

Those who wish to be able to put their thoughts to paper at the rate of from 100 to 250 words "per minute," should send for the above-mentioned works at once.

The instruction given by the Manual is as plain as A. B. C., and ten times as easy to understand.

The "CANADIAN PHONETIC PIONEER" is a Monthly Journal, devoted to the advocacy of the Reform. Price 25 cents per annum.

Address, (post-paid) WILLIAM H. ORR, Ottawa, C. W.

NOTICE.
