

SURVIVORS OF FRANKLIN'S COMPANIONS.

The Medical Times says—The news recently brought home as to the fate of Sir John Franklin shows very remarkably the fault committed by Government in neglecting to follow the advice of a well-known member of our profession—Dr. King. It is now known that Franklin's ships were wrecked close to an island—King William's Island—lying off the western land of North Somerset, and traces of the expedition have been found on the southern shore of this island, at Point Ogle on the continent of America, and at Montreal Island in the estuary of the Great Fish River. Now, in February, 1845, Dr. King proposed to Lord Grey, then Colonial Secretary, to go by the Great Fish River to the western land of North Somerset to aid the Franklin expedition in its survey. Two years afterwards, when anxiety was felt for the fate of the expedition, Dr. King made his second offer to search for and assist the expedition in its difficulty. The letter making this offer was dated 10th June, 1847, and, curiously enough, it is now shown that Franklin died on the 11th of June, one day only after this letter was written, near the very spot which Dr. King proposed to explore. As to Franklin's death, it appears from the records found by Captain McClintock, 105 survivors were on the road to the Great Fish River, in April, 1848; that had Dr. King's proposals of 1845 and 1847 been accepted, he must have met the party and rescued them. Year after year Dr. King reiterated his warnings and offers, and in 1856 memorialized the Admiralty to arrange a combined effort by sea and land, again directed to the precise spot where the remains of the expedition have been found. Had his offers been accepted, not only would our gallant countrymen have been rescued, but no necessity would have arisen for the expedition of Ross, Richardson, Collinson, Austin, Perry, Boleby, or Kellie, at a Government expense of £2,000,000; nor for the private expeditions under Ross, Kennedy, and McClintock, or the American efforts of De Haven and Kane. We do not mention this in any spirit of vain regret, but to point out that a summer land search up the Great Fish River would be of danger, would be inexpensive, and might be successful in rescuing some of the 105 survivors, all of whom can scarcely have perished in a country where there is plenty of game.

TORONTO MARKETS.

NARRATIVES OF THE JESUIT FATHERS!

LAST year the French reading part of the Canadian people were edified and delighted by the publication of the original Narratives of the Jesuit Fathers, who were the pioneers of religion and its attendant civilization in Canada. This work, important as it is to the French Canadian, is not less so to the English-speaking part of the population of North America. All inhabitants of this great continent, especially all Canadians, will assign it an honored place on their shelves which bear the stirring narratives of the first English and Dutch adventurers. It is fit, therefore, to make its revered authors speak with an English tongue. The early history of Canada is at this moment attracting much attention. The French Government has made large and precious contributions of historical matter to our Provincial Library, both manuscript and printed, relating chiefly to Canada, its settlement and wars: the Government of the United States has been ever zealous in collecting documents relating to the acts and sufferings of their hardy and adventurous founders; and the encouragement which our own Government could afford in aid of enterprises of the same character, has always been promptly and effectually granted.

The publication of authentic and interesting historical records has been favored and prompted by all enlightened and patriotic authorities: because they supply the best evidence of the truth of history, or the best materials for the composition of it. It has even been asserted, that the chronicles and private memoirs of contemporaries are of higher value than the polished pages of Hume and Mezeray. The Narratives now sought to be presented to the public are of great value to all classes. To the religiousist, whether Protestant or Roman Catholic, they afford precious evidence of the zeal of those servants of his Holy Religion who devoted themselves to its propagation among the heathen, and went forward through many a fiery trial, to find God often at the crown of martyrdom. The ethnologist will find in their faithful descriptions of a race now much degenerated and rapidly approaching to extinction, written amongst them as they lived and moved, and in their daily intercourse, received baptism or ferociously murdered the men who sought to bestow on them. Ordinary readers, from the intelligent scholar to the untutored peasant, will peruse with interest an account of men who trod the soil on which they now move,—who were the first to plant the seed and the river, now smiling with the rich harvest or glittering with the vessels of commerce,—and will learn with some emotion that they live and sleep in security on the self-same spot which has been often drenched with the blood shed in warfare or massacre.

The publication of so voluminous a work will depend entirely upon the support received from the public. The first volume has been translated by one of the best translators in the Province; and it will be put to press as soon as a sufficient number of subscribers is obtained to defray the cost of translation. The work will make 3 Volumes, Royal 8vo., of about 750 pages each, in Long Primer type. Subscription lists will be found at the Book-stores in Montreal, Toronto, Quebec, Kingston, Ottawa, Hamilton, London, &c. and at the Office of the Publisher, in St. Nicholas Street, Montreal; also at St. Anne Street Quebec. Price in paper covers per volume, \$2.74, or for the set \$8.25. Price in half calf per volume, \$3.50 or for the set \$10.50. JOHN LOVELL, Publisher. Canada Directory Office, Montreal, Sept. 1859.

PHONOGRAPHY, OR, WRITING BY SOUND.

PHONOGRAPHY was invented by ISAAC PITTMAN, of Bath, England, in the year 1837. It is the most simple, most natural most rapid, and most easily-learned system of Writing which has ever been, or ever can be invented. During the past fifteen years, hundreds of thousands of persons, in England and America, in both public and private life, have learned to write Phonography, and thousands of social and business letters annually pass through the post office. Not in its great popularity to be wondered at. The present system of writing is exceedingly cumbersome, and totally unworthy these days of progress and invention. Phonography is equally as legible, can be learned in one-twentieth the time, and can be written six times as fast! In other words, the labor of six days can be performed in one—one man can do the work of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours. An hour's daily practice for a few weeks will enable any person to write Phonography with certainty, and with some degree of freedom. The same amount of practice continued for six months will enable a person to take reports, speeches, lectures, sermons, or conversation, and to read them with accuracy. Dr. J. W. Stone, of Boston, says: "I deem Phonography an invaluable adjunct to education, and one which, when acquired in youth would not be parted with in manhood for thousands of dollars." The late Hon. THOS. H. BASTON, upon being presented with a verbatim report of one of his masterly speeches, taken by a little boy only twelve years of age, said: "Had this art been known 40 years ago, I would have learned it 20 years ago!" The learned senator spoke but a portion of the truth. What long-hand requires six years to accomplish, Phonography will perform in one. To Clergymen, Editors, Physicians, Lawyers, Secretaries, Clerks, Law and Medical Students, Lecturers, Printers, School Teachers, Merchants, School Boys and Girls, a knowledge of Phonography is of vast utility. In fact there is no profession or calling in which it is not useful, and no young man's education can be considered complete without it. During the past year months hundreds of persons in Canada, of every pursuit in life, have acquired the Art, from many of whom the subscriber has received neatly-written phonographic letters, expressive of their delight with the attainment, and the extraordinary ease with which they have acquired it. For the purpose of aiding in the dissemination so important a reform in his own country, the subscriber is now prepared to supply all who apply, with the Manual, or Phonographic, and the PHONOGRAPHIC COPY BOOK, sent by mail to any part of the Province, postage pre-paid, for the small sum of ONE DOLLAR. Anybody and everybody, who can learn anything, can learn Phonography, from the Manual, without other assistance. Those who wish to be able to put their thoughts to paper at the rate of from 100 to 250 words "per minute," should send for the above-mentioned works at once. The instruction given by the Manual is as plain as A. B. C., and ten times as easy to understand. The "CANADIAN PHONETIC PIONEER" is a Monthly Journal, devoted to the advocacy of the Reform. Price 25 cents per annum. Address, (post-paid) WILLIAM H. ORR, Ottawa, C. W.

J. K. FALCONBRIDGE,
