

LORD BROUGHAM ON THE MAINE LIQUOR LAW.

On Saturday evening, Lord Brougham and Stanley, M. P., distributed prizes and certificates to the pupils in connection with the East Lancashire Union of Mechanics' Institutes, at Accrington. In the course of his speech, Lord Brougham spoke as follows in connection of some misunderstanding which has arisen in regard to the speech he delivered at Bradford:—He understood that there was a great complaint of his having, at the Bradford Congress, declared himself a convert to the Maine Liquor Law. This was not, however, founded upon fact. He never said he had become a convert to that law. What he did say was, that in his country he was not prepared for an thing of the kind he had said, and that the greatest care should be taken not to encourage intemperance, and that all moderate and rational means should be used to discourage it, and that we agitate the public mind in favor of—not of the Maine Law—but of legislative repression. Why legislative repression should be applied to put a stop to drunkenness was, that the vice filled our jails with criminals and our workhouses with paupers (Cheers). It was always disagreeable as well as unprofitable to commit any exaggerations, for they diminished all they exaggerated—in other words, they turned the telescope the wrong way, and diminished the object they desired to magnify. Therefore he would guard against exaggeration. He had, however, the highest authority to use still stronger expressions, with regard to drink from one who was no stranger among us—one who since the days of Pitt, Fox, and Sheridan, was the most eloquent man of the present time, he meant the late Robert Hall. [Applause.] He and the late Lord Deansman once went to hear Robert Hall preach, and in one part of his admirable sermon they [Lord Brougham and Lord Deansman] suddenly turned round, as by impulse, and at one and the same time both exclaimed, "Plunkit," which was comparing him to the greatest orator of his time. [Cheers.] Well, Robert Hall was called upon one morning by a friend who was very much fatigued with walking, and he asked the minister if he would be kind enough to give him a glass of brandy. "I will," said Robert Hall, "if you will give it the right name." "What is that?" asked his friend. "Why liquid fire and distilled damnation," [Cheers and applause.] Now, he [Lord Brougham] said this to show that if he had chosen he might have gone very much further at Bradford than he did, and that very high authority. (Cheers.)

The CONVICT BEAUREGARD.—Beauregard, who was convicted at Montreal of the murder of August Chabon in April last, is to be hung on the 16th inst. This was the sentence that was passed on him at the time of his conviction; but it would have appeared from the remarks of some of our Montreal contemporaries that he had entertained hopes that the Executive would have commuted his sentence. Perhaps he was strengthened in these hopes by the assurances which were made on his behalf by the Hon. M. D. Sullivan, M. L. C., and other Lower Canadian gentlemen. The Executive, however, have put an end to the matter, by forwarding to the Sheriff of Montreal, the warrant for the execution of the prisoner. "Doubtless," says the Pilot of Saturday evening, "this has been done with a view of showing him that on this side of the grave all hope is at an end, and giving him a little while to make peace with his God. The intelligence was communicated to the prisoner, by the Sheriff, this forenoon. He bore it with apparent calmness—though he seemed to have hoped the bitterness of death was passed."—Leader.

The patriotism of the press has found vent in a resolution to establish a Newspaper Rifle Corps—a corps which, if the invasion should be made on the banks of the Clyde, would "give a good report of the enemy."—Gateshead Observer.

M. de Montalembert is again to be prosecuted. A pamphlet in which he republished the article which drew down a warning upon the Correspondent has been seized. The grounds stated in the warrant of seizure are "exciting to hatred and contempt of the government."

The number of men now on board the Great Eastern is 373, her full complement being 450 but whilst the vessel remains at Southampton the number of hands on board will be reduced to 100.

BIRTH.
On the 5th Con. concession of King on the 29th ult., Mrs. ALAN McKINNON, of a son.

Special Notices.

TO CONSUMPTIVES.—The Advertiser having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe Lung Affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To all who desire to be cured, he sends a copy of the prescription (free of charge) with directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. The only object of the Advertiser in sending the prescription is to benefit the afflicted, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will please address—

REV. EDWARD A. WILSON,
No. 360 FIRST STREET,
Williamsburg, Kings Co., N.Y.

A golden eagle was killed last week on the Lower St. Lawrence, and brought to Quebec, which was shot while endeavoring to carry off a child about three years of age. This is the only bird in America that will attack the human species. They breed in the North following at this season of the year the birds and animals that seek a milder climate.

The French agriculturists now use seed weeded collected on the coast of Normandy for gun wadding. It is found to answer the purpose admirably—keeping the iron cool, and not liable to ignition, the cotton wad hitherto in use.

PHONOGRAPHY,

OR,

WRITING BY SOUND.

PHONOGRAPHY was invented by ISAAC PLYMAN, of Bath, England, in the year 1837. It is the most simple, most natural most rapid, and most easily learned system of Writing which has ever been, or ever can be invented.

During the past fifteen years, hundreds of thousands of persons, in England and America, in both public and private life, have learned to write Phonography, and thousands of social and business letters annually pass through the post office.

Nor is its great popularity to be wondered at. The present system of writing is exceedingly cumbersome, and totally unworthy these days of progress and invention. Phonography is equally as legible, can be learned in one-twentieth the time, and can be written six times as fast! In other words, the labor of six days can be performed in one—one man can do the work of six! So simple is the system, too, that a person may learn to write it slowly, in a couple of hours. An hour's daily practice for a few weeks will enable any person to write Phonography with certainty, and with some degree of freedom. The same amount of practice continued for six months will enable a person to take reports of speeches, lectures, sermons, or conversation, and to read them with accuracy.

Dr. J. W. Stone, of Boston, says: "I deem Phonography an invaluable adjunct to education, and one which, when acquired in youth would not be parted with in manhood for thousands of dollars."

The late Hon. Thos. H. Benton, upon being presented with a verbatim report of one of his masterly speeches, taken by a little boy only twelve years of age, said: "I had this son when he was four years old, and he has acquired his 21 years' hard labor!" The learned senator spoke but a portion of the truth. What long-hand requires six years to accomplish, Phonography will perform in one.

To Clergymen, Editors, Physicians, Lawyers, Secretaries, Couriers, Clerks, and Medical Students, Lecturers, Printers, School Teachers, Merchants, School Boys and Girls, a knowledge of Phonography is of vast utility. In fact there is no profession or calling in which it is not useful, and no young man's education can be considered complete without it.

During the past nine months hundreds of persons in Canada, of every pursuit in life, have acquired the Art, from many of whom the subscriber has received neatly-written phonographic letters, expressive of their delight with the attainment, and the extraordinary ease with which they have acquired it.

For the purpose of aiding in the dissemination of so important a reform in his own country, the subscriber is now prepared to supply all who apply, with the Manuscript, or Manuscript, and the Phonographic Copy Book, sent by mail to any part of the Province, postage pre-paid, for the small sum of ONE DOLLAR.

Anybody and everybody, who can learn anything, can learn Phonography from the Manuscript, without other assistance.

Those who wish to be able to put their thoughts to paper at the rate of from 100 to 250 words "per minute," should send for the above-mentioned works at once.

The instruction given by this Manual is as plain as A. B. C., and ten times as easy to understand.

The "CANADIAN PHONETIC PIONEER" is a Monthly Journal, devoted to the advocacy of the R-form. Price 25 cents per annum.

Address, (post-paid)
WILLIAM H. ORR,
Oshawa, C. W.

J. K. FALCONBRIDGE,
