

THE PROVINCIAL EXHIBITION.

FIRST DAY. From the Globe. Yesterday was the first day of the Exhibition. Matters were in a much more forward state than has usually been the case in former years on the Tuesday. The Show, indeed, was so nearly complete that the Judges in most of the departments were busily engaged in the discharge of their duties the whole of the afternoon.

Our Provincial Show of 1860, which is to be visited to-day by His Royal Highness the Prince of Wales, we are happy to say, is destined to be an entire success. We have had Exhibitions in previous years, of which we had good reason to boast; but this one exceeds them all. The number of entries already is 7,000, exceeding the number at Toronto two years ago, the largest hitherto, by 1,500.

The Hamilton Fair-grounds are exceedingly well adapted for displaying the stock and articles exhibited to the best advantage, and for amply accommodating the immense crowds of visitors, who are drawn to Hamilton this week by the double attraction of the Annual Show, and the opportunity of giving a loyal welcome to the Heir Apparent to the British throne.

Among the curiosities discovered by the census takers is a pretty little girl of fifteen, in the southern part of Madison, in N. Y. State, who has a husband 107 years of age! A social crime utterly beyond parallel in atrocity.

A man named William Ezra Reinhard, who had been convicted of having murdered his mother, was sentenced in the Court of Three Rivers to be executed on the 26th October. The plea of insanity was set up by the friends of the criminal in his defence.

Members were admitted yesterday, and warmly congratulated each other on the success of the Show. The Prince will pay a private visit to-day, and will formally inaugurate it to-morrow, when it will be opened to the public.

MOVEMENTS OF THE PRINCE OF WALES.

CARRON, Sept. 17. From the Leader's Correspondence. The most interesting part of the Prince's performance on Saturday was when he was going across the rope on stilts he tripped and fell, catching the rope by his thigh; some said this was done for effect, but if so, the manoeuvre was admirably executed inasmuch that many ladies actually averted their eyes that they might not see the man fall into the water. After enjoying this sight much and staying to see the whole of the rope-walker's performance, the Prince of Wales gave him a cheque for one hundred pounds, and the same something more. Just as the Prince went to the Mid of the Mist and ran up into the spray of the Falls. After dinner he went to the alley at the Clifton House and enjoyed the exercise of bowling; his side beating the Duke's completely.

On Sunday, His Royal Highness drove to Chippewa Church, a distance of some three miles, and listened to a sermon from Rev. Mr. Loaming, the Incumbent.

To-day, the first appearance of the Prince was on his way to the ferry. It was not expected that he would cross, so there was only a small knot of people collected on the Canadian side, and there were very few more on the American. This Royal party crossed in the open ferry boat and on the other side were drawn up on the inclined railway. As they stepped out upon the Green, this being their first appearance upon the American soil, there was a slight cheer, but no enthusiasm, hardly even a cordial greeting, and a photographer took a view of them. They went rapidly towards the Goat Island, and the Prince walked round it, stopping at each projecting point, whence a good view could be obtained.

He went across the bridge which leads from Goat Island to Terrapin Tower and ascended this. He did not go into the Cave of the Winds but stood near it on the rock whilst some twenty of the guides and others loosened a log a couple of feet long and sent it over the Falls. He returned by the same means of conveyance that he used in going—employing a common hack-man to drive him up the road from the ferry to his residence.

The next thing this Royal Highness did was to drive to the Suspension Bridge, where the Great Western State car was in waiting to take him across. Before entering it, the Hon. W. H. Merritt read him the address of the Bridge Directors, setting forth the length, height, cost and other particulars connected with the structure. On the centre of the bridge the train passed to give him an opportunity of looking at the rapids leaving the Bridge, which the Duke pronounced to be unique. The party drove to the whirlpool and after having a good look at it came back, crossing the lower platform of the Bridge, and returned to their quarters. Subsequently the Prince rode on horseback into the Therold township, towards the Welland Canal, examining the country, which is well settled, fertile, and very picturesque. He has certainly "done" Niagara and its neighborhood thoroughly.

PERRY-MEN, RALLY. From the Whitty Chronicle. The day of nomination—Saturday week, is close at hand, and the polling on the 8th and 9th, follows at its heels. Now is the time for Mr. Perry's friends to put forward every effort towards securing the return of their candidate. The great measure of success that has attended Mr. Perry's canvass of the Division, gives every ground to expect that he will be elected by a triumphant majority. Yet nothing should be left undone. The enemy is cunning and tricky, and dally, and we must be wary and prepared for him, for we may be quite certain that he will not be very scrupulous about the means employed to overcome us. False reports bluster, and being, and

FIVE HUNDRED SHOT DEAD.

DR. M'KENZIE'S DEAD SHOT WORM CANDY.

Working Miracles beyond conception. The Medical Faculty of Scotland, as well as England and Ireland, have pronounced this Worm Candy to do more good than all other Medicines combined. It has stood the test since A. D. 1765, nearly one hundred years, which almost every son and daughter of Old Scotia can testify.

It has always borne the name of 'Old Dr. M'Kenzie's Worm Candy Stick.'

As it resembles a candy-stick in taste and appearance, and a child eating it is wholly unconscious of taking medicine, and where worms exist, the results are beyond description.

A child ten years of age, of the Rev. J. McDougall, Dundee, passed over 500 WORMS in three days, which he testifies, that he believed, by God's blessing, it saved the child's life. Thousands of similar testimonials are given (without solicitation) to the present proprietor.

General Symptoms of Worms! Restless, Sudden Startling and Grinding the Teeth in Sleep, Convulsions, Ruminous Appetite, (sometimes no Appetite) Paleness, Picking the Nose, Bowel Complaints, Fever, Fretfulness, Emaciation, Looseness of the Flesh, Dry Cough, Sour Breath, &c. &c.

All of the above symptoms will immediately cease to exist by using this Medicine once or twice. It always gives health, even if no worms exist. It is perfectly harmless even to the most tender infant.

Warranted Purely Vegetable in its combination.

Full directions with each package.

Sold at retail by all Druggists and Medicine Dealers in Europe and America, at 7½ pence sterling, (15 cents) per package, or 2 shillings, (50 cents) for four packages. Be sure that each package has the signature of H. E. McKenzie, M.D. Glasgow, on the wrapper.

Call for Dr. McKenzie's Dead Shot Worm Candy, NORTROP & LYMAN, Newcastle, C.W., CARTER, KERRY & Co. Montreal, C.E., and General Wholesale Agents for the Canadas. August 1860. 92

TO THE ELECTORS OF THE KING DIVISION OF THE LEGISLATIVE COUNCIL.

GENTLEMEN: HAVING obtained the unanimous nomination of the Convention held at Markham, on the 30th of June—composed, as that Convention was, of many of the most influential gentlemen residing within King Division; and having received many kind assurances of support from electors of all political shades, in every part of the Division, I am induced to offer myself as a Candidate for your suffrages at the approaching election of a representative to represent your Division in the Legislative Council.

The great responsibility which attaches to the high position of a Legislative Councillor, and the power placed in his hands, to be used for "the weal or woe" of the whole Province, are grave subjects for your consideration; and I frankly confess that it is not without many doubts as to my own ability to represent your interests, as efficiently as they ought to be, and as I would desire to do, that I now present myself before you.

A resident of the Division for nearly a quarter of a century, I believe myself to be personally known to a majority of the Electors, who will therefore be the better able to judge correctly whether in the event of my being placed at the head of the poll, I would protect your interests, advocate your views, and opinion on all questions of public policy, and zealously guard your rights, as the interest of one of the wealthiest, most populous, and intelligent Divisions in Canada.

A Canadian born, I early learned those great governmental principles of progress and reform, which have been so happily and beneficially adopted by the Mother country, and responsible government—securing to us the most valuable rights enjoyed under the British Constitution, I consider the form of Government best adapted to this country; when honestly administered, according to the well understood wishes of the people.

Should I be honored with your support, and be your chosen Representative, I will, to the utmost of my ability, advocate the following principles:—

- 1. Maintenance of the Union between the two Provinces.
2. Representation according to Population, irrespective of a dividing line between Upper and Lower Canada.
3. Encouragement to Emigrants.
4. Free Grants of Land to Emigrants and others, being actual settlers.
5. A Homestead Law.
6. No Expenditure of Public Money without the sanction of the Parliament.
7. Provincial Works only, to be taken up by the Government; and no Expenditure of Public Money to be made on Works of a local character.
8. Reimbursement in every Department of the Public Expenditure.—"Tinting in the Printing Office at the top."
9. Reduction of the Custom Duties.—The burden of taxation to be placed on the luxuries of the rich, and not on the necessities of the poor.
10. A Judicious Bankrupt Law.
11. Reduction of Law Costs.
12. Simplification of the Proceedings of Courts of Law.
13. Revision of the Court of Chancery.
14. Extension of the Municipal Law.
15. Election of Reeves and Deputies, and Wardens of Counties, by the people; the same as Mayors of Cities and Towns.
16. Aggravation of the Laws of Upper and Lower Canada.
17. The restriction of the rights of Mortgagees to the property held in Mortgage—without allowing them the right to come upon the other property, real or personal of the Mortgagee.
18. Holding all Parliamentary Elections in one day.
19. A better mode of settling Contested elections.
20. A Revisitory Liquor Law.
21. Payment of Criminal Witnesses.
22. Abolition of Newspaper Postage.
23. Abolition of the Franking Privilege.

I believe that the above principles involve many valuable and important measures of Reform, which would tend to the material advancement of our social and political progress; to the present disordered state of popular opinion, and considering the violent agitation (or complete disruption of our constitutional relations with Lower Canada, I feel bound to state freely and candidly, that I am of the opinion that the present disunion of the two Provinces is conducive to be the grand point at issue in this election. Any dissolution of the tie which now binds us together, to our great mutual advantage, must prove disastrous. Dissolution with a view to a federal connection of the two Provinces, I believe to be not only a patriotic and patriotic measure, but as evidenced by the vote of Lower Canada at last session of Parliament, perfectly unobtainable. Dissolution of the Union "pure and simple," a policy strongly advocated in some quarters, appears to me to be so obviously absurd, and in its consequences, so fatal, that I cannot believe in the sincerity or patriotism of its supporters. Lower Canada to the East, and the United States to the South, would then leave Upper Canada under their control, and entirely at their mercy. Hostile tariffs, and injurious restrictions here or there, in the shape of duties, would hamper us on every side; so that commercial disadvantages, and our isolated position would drive Upper Canada into ruin, no unforeseen, but to be dreaded connection, and would most probably lead to a movement for annexation to the United States.

Gentlemen,—I hope to see you in person, and to have the opportunity of offering a refuge to the electors and voters of this Division, from what country they may; the history of that country, her associations her struggles, are ours; her money, her credit, and her support has assisted our noble Province throughout all our dangers, difficulties and disadvantages. They are with us still. Let us cling then to our present connection, and unanimously oppose any and whatever policy that would be likely to endanger it.

The question of Federation of all the Provinces of British North America, is, even now, generally and very favourably entertained,—and I confidently anticipate the early accomplishment of such a scheme, and most earnestly hope for its consummation. I will zealously and cordially support every step calculated to secure its attainment. I believe that by the consolidation of our mutual interests and strength, we shall lay the foundation of a great North American Nation, linked together by the bonds of mutual commercial advantages, and to our Mother Country by the strongest ties of origin, kindred institutions, and identity of interests.

I believe that this is the only plan, by which we may hope to root out from amongst us, that bitter spirit of sectionalism and local jealousy now existing, and elevate the now petty politics of our Province to more worthy aspirations after Grand National objects.

I shall be no party man, in that sense of the word that requires all measures good or bad, emanating from one party to be supported while those of another are to be invariably rejected; I shall endeavor to judge impartially of the merits of each measure, as it is presented, irrespective of the source of origin from which it proceeds, and support or oppose it upon those grounds alone. Firmly believing that the true principle of all Legislation should be—"THE WELFARE OF THE PEOPLE," I shall endeavor to advance the country and secure the happiness of the community shall receive my earnest attention, and do all I can.

Your obedient, humble Servant, JOHN HAM PERRY. Whitty, July 10, 1860. 95-1f

Dr. Amos & Son, CORNER OF MAIN & QUAY STS., Buffalo, New York.

ARE the only Physicians in the State who are members of the Royal College of Surgeons, London. May be consulted from 8 o'clock in the morning until 9 at night, in every state and symptom of disease.

The treatment they adopt is the result of upwards of thirty years' extensive and successful practice in Europe and America.

A MOST SCIENTIFIC INVENTION. An instrument for the cure of Genital Debility, of Neuronal Emissions, more properly known as Seminal Weakness, &c. Can be permanently cured in from 15 to 20 days, by the use of this instrument, when used conjointly with medicine.

YOUNG MEN TAKE PARTICULAR NOTICE. Dr. Amos & Son take pleasure in announcing that they have invented a most important instrument for the cure of the above disease. It has been subjected to a test of the most eminent physicians in London, Paris, Philadelphia and New York. It has been declared the only useful instrument ever yet invented for the cure of seminal weakness, or any disease of the genital organs, caused by the secret habits of youth.

Dr. Amos & Son, in order to satisfy the most scrupulous and the most meritorious of their instrument, pledge themselves that in any instance where it may prove unsatisfactory, after a fair trial, the money will be refunded by returning the instrument in good order.

Persons wishing the above useful instrument, will observe that the price, with the accompanying directions, securely packed, and sent by mail or express, is ten dollars.

NEW REMEDIES AND QUICK CURES—A CURE WARRANTED.

Dr. Amos & Son have, for a long series of years, been engaged in an extensive practice in the treatment of these delicate complaints, and are the only legally qualified physicians who are not adverse to cure certain complaints, or from whom genuine European remedies can be obtained.

Persons in any part of the world may be successfully treated by forwarding a correct detail of their cases, with a remittance for medicines, &c., which will be returned with the utmost dispatch and secure from observation.
