A man named William Brainerd has been sentenced to be hung at the Three Rivers on Friday the 26th October. The crime for which he is sentenced is to suffer in the frightful one of murder by the use of a pistol, and was committed so long ago as April, 1853. He fled the country, after committing the crime, and returning recently, was arrested, and convicted on the testimony of his two brothers and a nephew.

INTERESTING INCIDENT.—Immediately prior to the departure of the Prince's car, per Michigan Central Railway, from Detroit on Friday, a fine coat of a very pleasing color, and which belonged to a lady, who was probably acquainted with the superintendent of the line, Mr. Roe, up and at the royal car with a very pretty basket, filled to abundance with fine pineapples, those which may be described under the name of the "melting" kind, which were imbedded in a clump of the richest grapes, making up in both, as regards fruit, the finest specimen that could possibly be selected. The colour of the grapes, binding together, were quite tasteful, while the richness of the gift was certainly very tempting. In addition, there was a splendid bouquet of flowers, made up in fragrant form, the flowers tapering up on either side to a point, and displaying their beauty on the part of the basket. The whole was the gift of the fair one referred to, and she very delicately, yet naively, placed on each of the gifts a sentiment, "From a true, loyal English heart." We may here mention, in passing, that her husband is an American, but she herself is "the true one born," that is, an Englishwoman. The gift, we trust, was duly appreciated by His Royal Highness.

An accident happened her last winter, by which she fell out of a buggy and got severely bruised, from which she never fully recovered. AWFUL CALAMITY—OVER 60 LIVES LOST.
A little girl of Mr. Sutherland, in the Township of York, has been declining in health for two years, the Doctors for and near were called in but they all pronounced her in the last stage of consumption. Slowly but surely she was approaching, when the little girl took from the shelf (stily) what she supposed to be a stick of Candy, and eat nearly all of it without suspecting it to be anything else, but fortunately it was a stick of Dr. McKenzie's Dead Shot Worm Candy, which her father had purchased the day before for his other children, the next day she was relieved of over sixty worms some of them 10 inches long. Consumption has left and she is now fast gaining her health and strength. How many children are annually dying from the prevalence of worms in the system, I parent open your eyes to this fact.

One trial of Dr. McKenzie's Dead Shot Worm Candy will satisfy the most sceptical. Price only 7½d sterling, 15 cents per package, or 2 shillings, 50 cents, for four packages—Sold by every Druggist and Medical Dealer in Europe and America.

None genuine without a fac simile signature of H. E. McKenzie, M.D. Glasgow, on each wrapper.

TO THE ELECTORS

KING DIVISION

LEGISLATIVE COUNCIL.

GENTLEMEN:
HAVING obtained the unanimous nomination of the Convention held at Markham, on the 30th of June—composed, as that Convention was, of many of the most influential gentlemen residing within King Division, and having received many kind assurances of support from electors of all political shades, in every part of the Division, I am induced to offer myself as a Candidate for your suffrages at the approaching election of a representative to represent your Division in the Legislative Council.

The great responsibility which attaches to the high position of a Legislative Councillor, and the power placed in his hands, to be used for "the weal or woe" of the whole Province, are grave subjects for your consideration; and I frankly confess that it is not without many doubts as to my own ability to represent you in this capacity, that I have ventured to do so, and as I could desire to do, that I now present myself before you.

A resident of the Division for nearly a quarter of a century, I believe myself to be personally known to a majority of the Electors, who will therefore be the better able to judge correctly whether in the event of my being placed at the head of the poll, I would protect your interests, advocate your views, and opine on all questions of public policy, and zealously guard your rights,—as the inhabitants of one of the wealthiest, most populous, and intelligent Divisions of Canada.

A Canadian born, I early learned those great governmental principles of progress and reform, which have been so happily and beneficially conceded to us by the Mother country.—Responsible government—securing to us the most valuable rights enjoyed under the British Constitution, I consider the form of Government best adapted to this country, when honestly administered, according to the well understood wishes of the people.

Should I be honored with your support, and be sworn chosen Representative, I will, to the utmost of my ability, advocate the following principles:—

1. Maintenance of the Union between the two Provinces.
2. Representation according to Population, irrespective of a dividing line between Upper and Lower Canada.
3. Encouragement to Emigrants.
4. Extension of the Franchise to Emigrants and others, being actual settlers.
5. A Homestead Law.
6. No Expenditure of Public Money without the consent of Parliament.
7. Provincial Work only, to be taken up by the Government; and no Expenditure of Public Money to be made on Works of a Local character.
8. Retrenchment in every Department of the Public Expenditure.—Putting in the Praising knife at the top.
9. Reduction of the Custom Duties.—The burden of taxation to be placed on the luxuries of the rich, and not on the necessities of the poor.
10. Judicials Bankrupt Law.
11. Reduction of Law Costs.
12. Simplification of the Proceedings of Courts of Law.
13. Revision of the Court of Chancery.
14. Extension of the Municipal Act.
15. Election of Reeves and Deputies, and Wardens of Counties, by the people; the same as Mayors of Cities and Towns.
16. Assimilation of the Laws of Upper and Lower Canada.
17. The restriction of the rights of Mortgagees to the property held in Mortgage—without allowing them the right to come upon the other property, real or personal of the Mortgagee.
18. Holding all Parliamentary Elections in one day.
19. A better mode of settling Contested elections.
20. A Prohibitory Liquor Law.
21. Payment of Civil Writs.
22. Abolition of Newspaper Postage.
23. Abolition of the Franking Privilege.

I believe that the above principles involve many valuable and important measures of Reform, which would tend to the material advancement of our social and political progress; but in the present disturbed state of political opinion, and considering the violent agitation for a complete disruption of our constitutional relations with Lower Canada, I feel bound to state freely and candidly, that the Union of the two Provinces I conceive to be the grand point at issue in this election. Any dissolution of the tie which now binds us together, to our great mutual advantage, must prove disastrous. Dissolution with a view to a federal connection of the two Provinces, I believe to be not only a retrograde and injurious step, but as evinced by the vote of Lower Canada at last session of Parliament, perfectly untenable. Dissolution of the Union "pure and simple," a policy strongly advocated in some quarters, appears to me to be so obviously absurd, and in its consequences, so fatal, that I cannot believe in the sincerity or patriotism of its supporters. Lower Canada to the East, and the United States to the South, would then leave Upper Canada under their control, and entirely at their mercy. Hostile tariffs, and injurious restrictions here or there, or perhaps both, would hamper us on every side, so that commercial disadvantages, and our isolated position would drive Upper Canada into some, now unknown, but to be dreaded consequence, and would most probably lead to a movement for annexation to the United States.

Gentlemen,—I hope no necessity for such a movement may arise. You and I are British subjects, our loyalty is due to a Queen, distinguished for every grace and virtue that can adorn her position, our hearts and sympathies are noble Province throughout all our dangers, difficulties and disadvantages. They are with us still. Let us cling then to our present connection, and unanimously oppose any and whatever policy that would be likely to endanger it.

The question of Federation of all the Provinces of British North America is, even now, generally and very favorably entertained.—I confidently anticipate the early accomplishment of such a scheme, and most earnestly hope for its consummation. I will zealously and cordially support every step calculated to secure its attainment. I believe that, by the consolidation of our mutual interests and strength, we shall lay the foundation of a great North American Nation, linked together by the bonds of mutual commercial advantages, and of the Mother Country by the strongest ties of origin, kindred institutions, and identity of interests. I believe that this is the only plan, by which we may hope to root out from amongst us, that bitter spirit of sectionalism and local jealousy now existing, and elevate the now petty passions of our Province to more worthy aspirations after Grand National objects.

I shall be no party man, in that sense of the word that requires all measures good or bad, emanating from one party to be supported while those of another are to be invariably rejected; I shall endeavor to judge honestly of the merits of each measure, as it is presented; irrespective of the source or origin from which it proceeds, and support or oppose it upon those grounds alone. Firmly believing that the true principle of all Legislation should be—"THE GREATEST GOOD TO THE GREATEST NUMBER"—all measures calculated to advance the country and secure the happiness of the community shall receive my earnest attention, and cordial support.

If elected I shall know no "East" no "West,"—either locally or provincially, but will endeavor to act impartially for the whole, without distinction of locality, creed or sect.

There are two questions of a local nature affecting the Division to which I desire to allude, 1st. The late proposed Whitchy Railway. The question of granting County aid to that work has already been decided by the Ratepayers of Ontario. With that decision I am content, and will not use my influence, or position to bring that subject again before the people, for pecuniary assistance. The charter has expired, and should another ever be granted, it is evident that the road must either be constructed by private subscription or with foreign assistance.

2nd. With reference to the separation of the county of York from the city of Toronto for judicial purposes. I am in favor of the passage of a bill for that purpose to take effect as soon as approved of by the ratepayers of the County of York.

Gentlemen!—In soliciting your support as a candidate for the representation of King Division in the Legislative Council, I may say in conclusion that I have no personal ambition to serve, nor private object to gain, and should I have the honor to be elected I will go to the House Free and untrammelled and unpledged, to support any political party or set of men, for the sake of the party. My political views on the public questions of the day are now fairly before you. These principles are such as I believe the true interests of the Province demand, and will under every circumstance and condition find in me a warm advocate. Men may come into power to-day and go out to-morrow.—Ministries may exist two hours or two years, but the welfare of the Province—and the future greatness and prosperity of my native country, will always be my first consideration.

I have the honor to be, Gentlemen,
Your obedient, humble Servant,
JOHN HAM PERRY.
