

Arrival of the Etna.

The screw steamer Etna, Captain Kennedy, arrived at New York on Tuesday, from Liverpool via Queenston. Captain Kennedy left Liverpool on the 5th instant, and Queenston on the evening of the 6th, bringing English papers four days later than previously received.

The case of Irwin versus Lever, in which the plaintiff seeks to recover from Mr. Lever compensation for services in promoting the formation of the Galway line, was again brought before the public in the Court of Common Pleas. The defendant pleaded "never indebted." The plaintiff was nonsuited.

The supplementary convention to the commercial treaty between France and England is published in extenso. The articles enumerated in the tariff comprise taxable fabrics composed of flax, cotton, wool, silk, vegetable fibres, also chemical products and dyestuffs, glass and crystal ware, earthenware, pottery, &c.

The London Times devotes an editorial to the recent message of Governor Brown, of Georgia. It treats the document as a preposterous composition, and in parts more like a burlesque than a serious State paper. It concludes as follows:—

Such are the suspicions under which the Southern States are asked to destroy the Union, which has lasted eighty years, and given them a place among the first nations of the earth.—The world will judge for itself what are the chances of a federation in which Governor Brown shall be a leading spirit."

A banquet was given on the 3rd instant, in the Theatre at Limerick, to about 80 members of the Irish Brigade which figured in the recent campaign, in the Papal States. The demonstration was attended with much enthusiasm.

A fearful explosion had occurred in the Rison coal mines, near Newport, Wales, entailing the loss of about 170 lives. Opening the safety lamps to obtain lights for pipes is believed to have been the cause of the explosion.

Sir Henry Marsh the eminent Dublin Physician, died suddenly on the 2d, from apoplexy. A letter from Dr. Livingston to the Bishop of Oxford, dated Sunday, April 17, has been just received and published.

FRANCE. The Monitor announces that M. Barache, President of the Council of State, having the rank of Minister, takes the title of minister without a portfolio.

The new Cabinet met for the first time on 1st inst. The Emperor arrived from Campagne for the purpose of presiding. Count Persigny had presented his letters of recall to the English Court, and had returned to Paris.

The Monitor editorially notices the warm reception extended to the Empress Eugenie in England, and says that such manifestations cannot but draw closer the ties which bind the two nations.

The apprehension of a monetary crisis in Paris had subsided. The bulletin in the Bank of France during the last week is said to have increased by fifteen million francs.

The pastoral of the Archbishop of Paris concerning the Pope had been read in the churches of that capital, and was considered remarkable for its moderation.

A despatch from Paris announces that the Emperor had granted permission for a Baltimore battalion to visit France fully accoutred in the coming spring.

Marshall Vaillant had been created Minister of the Emperor's Household.

It is stated that no one was aware of the Emperor's purpose respecting the decree relative to the constitution till he revealed the document to his astonished Ministers in Council, where it met with some opposition.

GREAT MEETING IN THE ST. LAWRENCE HALL.

JUDGEMENT OF THE QUEEN'S BENCH REVERSED. (From the Globe.)

The meeting in St. Lawrence Hall last night to give expression to the public feeling on the extradition case, was one of the largest and most enthusiastic we have ever seen in Toronto. Hundreds were compelled to leave the Hall unable to find room even to stand. The night was very wet, and, therefore, but few of the gentler sex were present. The audience consisted almost wholly of men, embracing every rank and class, from the wealthy merchant to the humble labourer, May or Wilson presided. On the platform were the leading clergymen of the city, several lawyers, merchants, and professional men. The speeches were all admirable, some more than usually eloquent. They were received with enthusiastic applause, especially of our country as an asylum for the fugitive slave.

The occasion is a great one, and we trust the other cities and towns in Canada will follow the example of Toronto. The probabilities are that the Court of Appeal will reserve the decision of the Queen's Bench, for every lawyer of standing whose opinion we have heard, is dissatisfied with it and with the reasoning by which it is attempted to be supported. But it is possible that three of the other Judges may agree with the Chief Justice and Judge Burns, in which event it will be necessary to carry the case farther. Public opinion as Mr. Cameron said at the meeting is the highest tribunal to which an appeal can be made in a question affecting human rights, and that tribunal must speak out; it must be made to tell upon the Government and, if need be, upon the Legislature. "Britons never will be slaves," nor the catchers of slaves!

THE BOOT AND SHOE BUSINESS.—The manufacturers of boots and shoes at Lynn, Marblehead, Natick, and other large manufacturing towns, are doing scarcely anything at the present time.

AMERICAN AFFAIRS.

Matters are getting serious at Washington. The violence of the South is stiffening the backbone of the North, and even Western Democrats are beginning to talk of coercing the South into submission. It is probable that the entire North, Democrat, and Republican, will soon be united on a policy. It is plain to every one that at present, at least, the South do not desire peace; that they are determined to go out of the Union at all hazards. Even Mr. Crittenden, Conservative Kentuckian as he is, thinks that his State must go with the South, if concessions are not made which no Northern man will grant. General Cass's resignation adds to the confusion, and it must be confessed that the danger of disunion is imminent. The Conservative spirit of the South may be awakened in time to prevent the split, but it does not appear likely at present. The South thinks there is no safety for slavery within the Union, and we are very much inclined to coincide in that view. It remains to be seen whether slavery will be any safer outside.—Globe.

EXTENSIVE FIRES IN BUFFALO.—Three fires occurred in Buffalo on Sunday morning. One was inconsiderable. Another resulted in the burning of the public house kept by Burrus & Dickey, for accommodation of drovers, in connection with their cattle yards on Elk street, and known as the "Lamb place." There were twenty persons in the house at the time, two of whom, Mr. Phineas Dickey and Anne Burns, were burned to death. Several of the remaining eighteen were injured in various parts of the body, principally by jumping out of the windows. The third and last fire which occurred destroyed the interior of the Fire Engine House on South Division street, formerly occupied by Washington Engine Co. 5, and latterly assigned to the steamer C. W. C.

GARIBOLDI AND THE VENETIANS.—The following is an extract from a Turin letter of the 14th:—"The Venetian emigrants, whose numbers increase daily, have organized committees in every large town. The principal one is at Turin, and last evening it held a meeting attended by all its members. After some discussion on administrative matters, of no interest to any but the persons concerned, one of the members proposed Garibaldi as honorary president of the committee. The motion was received with unbounded applause, and adopted unanimously. It was also decided to transmit the minutes of the sitting to all the local committees, with the request that they also would appoint the ex-Director of the Turin Societa their honorary President. The proposition will be received elsewhere as it has been here; and in less than a week Garibaldi will be the honorary President of all the Venetian refugee societies in the States of King Victor Emmanuel. A deputation has been named to carry to Capri the announcement of this vote, and an address.

A RUSSIAN NOTION OF NEWS.—Count Buz, the Russian Governor of Finland, has issued the following:—"Helsingfors, Aug. 28.—Since the commencement of the troubles which are now agitating Italy, the journals published in the Finns language have given copious details of them. But as I am of opinion that the people of Finland cannot derive much advantage from the knowledge of events of this kind, and that the editors of the Finns journals would do well to fill their columns with more instructive articles, I beg of you to direct the contents only to a low to be published on the Italian question, in newspapers destined for the people, opinions in accord with the principles of order and morality, and with the sentiment of duty of an obedient people."

The loss of life and property during the gale and snow storm, that swept the lakes on Saturday the 24th November, was immense. The Buffalo Commercial Advertiser says that in twenty-five years. The Buffalo, Cleveland and Detroit papers are filled with accounts of wrecked sailing and steam vessels, on lakes Ontario and Erie—eastward bound vessels loaded with produce, and westward bound vessels loaded with merchandise. The wreck of the propeller Darcon, on which Captain Cross was lost, was found near Niagara Falls, one half of the entire bottom being loaded high and dry on the beach, all perfect.

The Times predicts serious results for France if the present financial policy and lavish expenditure be not checked. The Paris takes to the East £174,000, of which £78,000 is in gold. The Morning Herald says that in the letters from Paris it is stated that the drain of bullion is occasioning excitement. Through the existing position of affairs, the populace are taking alarm, and, as usual under such circumstances, hoarding is daily practised to a considerable extent. The Daily News says that the French advisers announce that the question of a fresh loan in the rate of discount of the Bank of France has been adjourned by the Council of that establishment until Monday.

SPECIAL NOTICES. CHALLENGE! CHALLENGE! TO ALL WHOM IT MAY CONCERN.—It is a noted fact that all Worm Medicines fall into insignificant compared with McKenzie's Dead Shot Worm Candy. It far surpasses the expectations of every one. It gives new life and vigor to the feeble, emaciated and sickly child. It not only eradicates every species of worms, but it cleanses the whole system from all impurities. The extensive sale of this Worm Candy is sufficient proof of its efficacy. There are scores of Worm Medicines in Canada, yet it has been ascertained, on reliable information that the sale of the Dead Shot Worm Candy is one-third more than all the others combined. It is sold by every dealer in medicine for 15 cents; four packages for half-a-dollar.—See advertisement in another column.
