TO THE ELECTORS

WEST YORK RIDING!

HAVING been nominated at a large and influential meeting of the Electors of this Riding, hold in Weston on the 13th instant, to represent the constituency in the House of Assembly, I have compiled with their request, and beg to offer myself as a Candidate for your suffrages at the approaching Elections.

a litrages at the approaching Liections.

I do so the more cheerfully knowing the Riding to be almost altegether an Agricultural one, to which pursuit I have devoted the energies of my lifetime. In private life a former, in public the Farmers' friend,

public the Farmers' friend,

For twenty years I have served this Riding as the President, Vice-President, or Disector of the Agricultural Society. For feureen years I have been unminimously elected Treasures of the Provincial Agricultural Association of Upper Causade, and elected by the County Agricultural Societies of the Province, as a member of the Board of Agriculture from its very commencement. I do not mention this in bonsting, but in honest pride that my exertions as an agricultural lave been appreciated by my brother farmers.

As a native of the Riding and account.

I am in favor of an extended Representation for Upper Canada, and any such measure shall

receive any support.

I will use try utmost endeavors to procure
the early settlement of our public wild lands,
under the conviction that such settless, even
though they hought their lands for almost nothing, would be of infainte more advantage to
the Province by the direct and indirect taxes
they would be called upon to pay, then by the
direct benefit derived from the sale of the land
itself.

I am prepared and determined to demand full and even-handed justice for Upper Canada in every respect, and at the sense time will do my utmost to support the Union, and thereby preserve open and unrestricted intercourse with the Allantie.

I will never consent that any Government should spend the money of the people without first obtaining the sanction of their representatives.

Those who honor me with their support must

for our mutual advancement,

If elected I will do all that lies in my power to foster Agriculture and its kindred adjunct, and to elevate the Agriculturist, with the full conviction that it is to the advancement of that science that we are mainly to look for many years yet to come for the prosperity of our country.

To the Electors

HAVING been honoured by you with a seat in Parliament for about ion years, it is with pleasure I accept the nomination of the Convontion held in the Riding on the 15th inst, and again solicit your suffrages at the approaching Election.

support, I think it needless to give a detailed slatement of my political principles, suffice it to say, that if returned to Parliamont, it will be my highest ambition, not only to retain your confidence, but to carry out what I believe to be the well understood wishes of the people.

The Consus returns of Jenuary last, show that the population of Upper Canada exceed that of Lower Canada by about 300,000. that a: Lower Canada by about 500,000. It follows as a consequence that the demand for Ropresentation based on Pupulation, must be net. No administration can stand, that will ignore the rights of the poople of Upper Canada on this point.

da on this point.

The expenditure of Public Money, without the cansent of Parliament, and the fact that our public dobt has been increased during the past six years from \$29,000,000 to \$70,000,000 is onough to alarm the most indifferent, and ought to arouse every man in Western Canada to aid in driving from public life, every man whe sneembs to Lower Canada influence, or sustains a ministry, which by mal administration, has lost the confidence of the people of Upper Canada.

Upper Canada.

The time has come when it believes every man, be his political principles what they may, to set his face against corruption and fraud in high places, The present ministry by advancing to the Grand Trunk Cempany over \$1,000-000 without the consent of Parliament, notwithstanding their repeated declarations that no aid was to be given, have committed a violation of the constitution, and undermined the very foundation upon which the political fabric stands.

stands.

I shall at all times endeavour to aid in developing the resources of the country. In consequence of the high price of land, quite too large a proportion of our people are compolled to live in towns and cities. I would reduce the price of land so as to enable every man, whether native or foreigner, to acquire for himself a home; and thus be in a position to aid in the development of its resources, as we'l as add to the revenue of the country.

I believe every man ought to have the right

It be revenue of the country.

I believe every man ought to have the right to buy at the chapest, and sell at the dearest market the world over; and knowing that the reciprocity treaty with the United States has had the effect of enhancing the price of the products of the country. I will support any measure calculated to extend its provisions, or that will give increased facilities to commerce. Identified with the industrial class, and having an interest in common with the people whom I saek to represent, I shall at all times take an interest in the enactment of such laws as are best calculated to secure qual civil and religious liberty.

I have the honor to be Gentlemen,

On the Requisition of a large number of in fluential Electors, I offer myself as a Candidate to represent you in Parliament, and I frankly confess that it is not without doubts as to my ability to represent your interests as efficient as they ought to be, or as I would desire to de Canadian born, educated within the County and engaged in business as a Miller, Woolle Manufacturer and Farmer; so that my in terests are identical with your own.

Should I have the honour of being your most screen Representative, I will advocate the of those following principles, irrespective of party; and I shall endeavour to judge honestly of any other measures, without reference to the I shall endeavour to judge honestly course or origin from which they proceed, and support or oppose them on their merits alone:

I have, in a measure, to leave to your good will to make up for what might otherwise be wanting in that respect.
