Only one vein, and that one not more than three inches thick, has yet been open, and to any extent, or been found to pay.—

Examining the work in this vein muttley,

I found the miners laboriously grubbing in a trench about three feet in width, dug by hand with pick and crow-bar, to the depth of twelve or fifteen feet, through a kind of shaly slate stone in which the quartz reed was embedded. Gold has been found in some of nothing. Gold has been found in some of the other veins, but not in any remuneratyve quantity.

In the House of Commons, on the 24th, Mr. Scully moved an address to her Majesty, representing that Mr. Adair, one of the Justices of the Peace for the County of Donegal, has recently rejected all the inhabitants from a tract of land in that County, under circumstances which appear to affect seriously the general peace and well being of the district, and praying that the she may be pleased to direct an inquiry, sith a view to consider whether it is fitting.

BY REV. JOSEPH BELCHER, D.D.

THE LIFE OF JESUS CHRIST is the philosophy of the religion. It exhibits the Principles of Christianity in their purity and beauty. It is perfect excellence personified, that the mind of man may grasp it, and be changed into the same image. The inspired witers have given it to us in detached descriptions. Dr. Fleetwood has arranged those in one harmonious whole, with such comments, explanations and incidental informations as to render it silks acceptable to the scholar, as to thin who knows no more, but knowshis Bible true.
